

CollegeEd

CollegeEd is a collaborative academic and career planning curriculum for students, teachers, and parents designed to empower students with the skills and knowledge to envision their goals and achieve success in higher education.

CollegeEd will help schools:

- Help all children - whatever their talents - find a way to go to college.
- Reinforce efforts to raise academic standards.
- Give students practical advice on exploring individual learning styles and inspire them to study hard, set goals, and think big.
- Teach students planning, time management, organization and study skills.
- Involve parents in children's academic plans with use of the *CollegeEd Middle School Family Handbook* and *The High School Parent's Guide to College Planning*.

CollegeEd will help students:

- Discover the value of a college education and develop a strong interest in attending college.
- Gain awareness that high school choices matter.
- Learn that proper planning leads to success in middle school, high school and college.
- Develop an academic plan and take practical steps toward charting college and career paths.

Implementation of College Ed can be managed as a stand alone class, integrated in an existing class, during an advisory period or other ideas that would benefit your schedule.
