**Grant Resource –** National Endowment for the Arts

**Category –** Arts

**Description –** Grants for Arts Projects categories include Access to Artistic Excellence, Challenge America Fast-Track, Learning in the Arts for Children and Youth. Introduction Access to Artistic Excellence encourages and supports artistic creativity, preserves our diverse cultural heritage, and makes the arts more widely available in communities throughout the country. While projects in this category may focus on just one of these areas, the Arts Endowment recognizes that many of the most effective projects encompass both artistic excellence and enhanced access. Particularly relevant at this time are projects that demonstrate innovation by generating new forms of art making, new directions in the field, and/or innovative uses of creative resources. Support is available to organizations for projects that do one or more of the following: Provide opportunities for artists to create, refine, perform, and exhibit their work. Present artistic works of all cultures and periods. Preserve significant works of art and cultural traditions. Enable arts organizations and artists to expand and diversify their audiences. Provide opportunities for individuals to experience and participate in a wide range of art forms and activities. Enhance the effectiveness of arts organizations and artists. Employ the arts in strengthening communities. The Arts Endowment is particularly interested in projects that extend the arts to underserved populations -- those whose opportunities to experience the arts are limited by geography, ethnicity, economics, or disability.

**Size of Grant -** \$150,000

**Description –** The Challenge America Fast-Track category offers support primarily to small and mid-sized organizations for projects that extend the reach of the arts to underserved populations -- those whose opportunities to experience the arts are limited by geography, ethnicity, economics, or disability. Age alone (e.g., youth, seniors) does not qualify a group as underserved; at least one of the underserved characteristics noted here also must be present. This category, as an essential component of the Arts Endowment's goal of providing wide access to artistic excellence, supports local projects that can have significant effects within communities. Grants are available for professional arts programming and for projects that emphasize the potential of the arts in community development. Partnerships can be valuable to the success of these projects. While not required, applicants are encouraged to consider partnerships among organizations, both in and outside of the arts, as appropriate to their project. These Fast-Track grants: Extend the reach of the arts to underserved populations; Are limited to the specific types of projects outlined; Receive an expedited application review. Organizations are notified whether they have been recommended for a grant approximately six months after they apply; projects may start shortly thereafter.
