

Grant Opportunities for Oklahoma Higher Education

2/2009

TARGET: International and Global Studies

This announcement is provided by the Oklahoma State Regents for Higher Education, Grant Writing and External Funding Assistance as a special targeted list of Grant Opportunities for International or Globalization Studies. **Grants that have deadlines that are past are typically offered again the following year.** The grant opportunities are organized by source: National Science Foundation, US Department of Education, US Department of Health and Human Services, US Department of State, and Miscellaneous Resource.

If you wish to be added to the direct mailing list, add your email address to the listserve at <http://lists.onenet.net/mailman/listinfo/okhigheredgrants>.

Check out the **Grant Opportunities for Oklahoma Colleges and Universities** web site at <http://www.okhighered.org/grant-ops/>.

Thank you!

Linda Mason, Ed.D.

NATIONAL SCIENCE FOUNDATION

Proposals to Support International Travel – (see http://www.nsf.gov/publications/pub_summ.jsp?ods_key=pgg NSF Grant Proposal Guide, p. II-25) – Group travel awards are encouraged as the primary means of support for international travel. A University, professional society or other non-profit organization may apply for funds to enable it to coordinate and support US participation in one or more international scientific meetings abroad.

Deadline Date – November 4, 2008 Preliminary Proposal, January 30, 2009 Full Proposal

Grant Resource – National Science Foundation

Category – International Collaboration in Chemistry between US Investigators and their Counterparts Abroad (ICC)

Description – The National Science Foundation (NSF) seeks to enhance opportunities for collaborative activities between U.S. and foreign investigators. NSF Chemistry will accept collaborative research proposals in chemistry that establish new bilateral collaborations between U.S. investigators and investigators from Germany, Austria, United Kingdom, China or France. It is envisioned that the program will be expanded to include additional partnering foreign agencies in the coming years. The program seeks new and highly innovative 3-year collaborative projects that break new ground and demonstrate high level of synergy between the collaborating investigators.

Size of Grant - 30 awards totaling \$10 million for 3 year projects

Cost Sharing or Match – No

Web - <http://www.nsf.gov/pubs/2008/nsf08602/nsf08602.htm>

Deadline Date – July 15, 2008

Grant Resource – National Science Foundation

Category – International Materials Institutes

Description – The National Science Foundation supports International Materials Institutes (IMIs) in order to enhance international collaboration between U.S. researchers and educators and their counterparts worldwide. These Institutes advance fundamental materials research by coordinating international research and education projects involving condensed matter and materials physics, solid state and materials chemistry, polymers, metals, ceramics, electronic materials, biomaterials and, in general, the

design, synthesis, and characterization of and phenomena in materials to meet global and regional needs.

Size of Grant – 8 awards of up to \$1.2 million

Cost Sharing or Match – No

Web - http://www.nsf.gov/publications/pub_summ.jsp?ods_key=nsf08558

Deadline Date – November 17, 2008

Grant Resource – National Science Foundation

Category – Materials World Network: Cooperative Activity in Materials Research between US Investigators and their Counterparts Abroad (MWN)

Description – The National Science Foundation is working jointly with counterpart national, regional and multinational funding organizations worldwide to enhance opportunities for collaborative activities in materials research and education between US investigators and their colleagues abroad. This solicitation describes an activity to foster opportunities for such collaborations. It includes joint activities between NSF and funding organizations in Africa, the Americas, Asia, and Europe. Proposals submitted to NSF in response to this solicitation must have clear relevance to research supported by the NSF Division of Materials Research (DMR), as they will be evaluated within the context of programmatic areas within DMR: condensed matter physics, solid state and materials chemistry, polymers, biomaterials, metals, ceramics, electronic materials, and condensed matter and materials theory.

Size of Grant – 40 awards totaling \$4.5 million

Cost Sharing or Match – No

Web - http://www.nsf.gov/publications/pub_summ.jsp?ods_key=nsf08590

Deadline Date – December 9, 2008 and each 2nd Tuesday in December annually

Grant Resource – National Science Foundation

Category – East Asia and Pacific Summer Institutes for U.S. Graduate Students (EAPSI)

Description – The East Asia and Pacific Summer Institutes (EAPSI) provide U.S. graduate students in science and engineering: 1) first-hand research experiences in Australia, China, Japan, Korea, New Zealand, Singapore or Taiwan; 2) an introduction to the science, science policy, and scientific infrastructure of the respective location; and 3) an orientation to the society, culture and language. The primary goals of EAPSI are to introduce students to East Asia and Pacific science and engineering in the context of a research setting, and to help students initiate scientific relationships that will better enable future collaboration with foreign counterparts. All institutes, except Japan, last approximately eight weeks from June to August. Japan lasts approximately ten weeks from June to August (specific dates are available and updated at www.nsf.gov/eapsi).

Size of Grant - \$5,000 stipend, orientation expenses in Washington DC, round trip travel, all living expenses

Cost Sharing or Match – No

Web - http://www.nsf.gov/publications/pub_summ.jsp?ods_key=nsf08603

Deadline Date – June or July 2009

Grant Resource – National Science Foundation

Category – Research Coordination Networks in Biological Sciences (RCN)

Description – The goal of this program is to encourage and foster interactions among scientists to create new research directions or advance a field. Innovative ideas for implementing novel networking strategies are especially encouraged. Groups of investigators will be supported to communicate and coordinate their research, training and educational activities across disciplinary, organizational, institutional, and geographical boundaries. The proposed networking activities should have a theme as a focus of its collaboration. The focus could be on a broad research question, a specific group of organisms, or particular technologies or approaches.

Cost Sharing or Match – No

Web - http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=11691

Deadline Date – Open

Grant Resource – National Science Foundation

Category – Developing Global Scientists and Engineers – International Research Experiences for Students (IRES) and Doctoral Dissertation Enhancement Projects (DDEP)

Description – The Developing Global Scientists and Engineers program provides highest quality international research experiences for U.S. students. Whereas the International Research Experiences

for Students (IRES) component of the program supports groups of U.S. undergraduate or graduate students conducting research abroad in collaboration with foreign investigators, the Doctoral Dissertation Enhancement Projects (DDEP) component supports the dissertation research abroad of one doctoral student in collaboration with a foreign investigator.

Cost Sharing or Match – No

Web - http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=12831

Deadline Date – September 15 annually

Grant Resource – National Science Foundation

Category – Documenting Endangered Languages

Description – This multi-year funding partnership between the National Science Foundation (NSF) and the National Endowment for the Humanities (NEH) supports projects to develop and advance knowledge concerning endangered human languages. Made urgent by the imminent death of an estimated half of the 6000-7000 currently used human languages, this effort aims also to exploit advances in information technology. Funding will support fieldwork and other activities relevant to recording, documenting, and archiving endangered languages, including the preparation of lexicons, grammars, text samples, and databases.

Size of Grant - 10 Standard Grants of \$150,000/yr for 3 year projects; 12 Fellowships of \$4,200/mo for 12 months

Cost Sharing or Match – No

Web - <http://www.nsf.gov/pubs/2006/nsf06577/nsf06577.htm>

Grant Resource – National Science Foundation

Category – International Cooperative Biodiversity Groups (ICBG)

Description – The National Institutes of Health, the National Science Foundation, and the U.S. Department of Energy invite applications for the establishment or continuation of International Cooperative Biodiversity Groups to address the interdependence of biodiversity exploration for potential applications in health and energy, with investments in research capacity that support sustainable use of these resources, the knowledge to conserve them and equitable partnership frameworks among research and development organizations in the U.S. and low and middle income countries. Research and training focused on plant biodiversity continues to be of interest, especially that which may inform us regarding composition, safety and efficacy of botanicals that may be used or marketed as dietary supplements, or novel scientific analyses of plants used traditionally as medicines.

Cost Sharing or Match – No

Web - http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=503183

Deadline Date – Varies with specific directorate – Supplement request accepted anytime

Grant Resource – National Science Foundation

Category – Grant Opportunities for Academic Liaison with Industry GOALI

Description – The GOALI program seeks to stimulate interactions and staff exchange between universities and industry. For example, faculty, postdoctoral fellows, and students are encouraged to develop creative modes of collaborative interactions with industry through individual or small-group projects, and industry-based fellowships or traineeships for students and post-doctoral fellows. International collaborations that strengthen proposed project activities are encouraged, when there is an opportunity for coordinated funding with colleagues from foreign institutions who will add value to the project. This program will support the US-based scientists and their students. Proposals for international collaborations will be evaluated on the value that they add to the domestic research proposed.

Size of Grant – 80 awards totaling \$10 million

Cost Sharing or Match – No

Web - <http://www.nsf.gov/pubs/2009/nsf09516/nsf09516.htm>

Deadline Date – February 24, 2009 Partnerships for Adaptation, Implementation and Dissemination (PAID), November 12, 2009 Institutional Transformation (IT) and Institutional Transformation Catalyst (IT-Catalyst)

Grant Resource – National Science Foundation

Category – ADVANCE: Increasing the Participation and Advancement of Women in Academic Science and Engineering Careers

Description – The goal of the ADVANCE program is to develop systemic approaches to increase the representation and advancement of women in academic science, technology, engineering and

mathematics (STEM) careers, thereby contributing to the development of a more diverse science and engineering workforce. Projects may have an international, national, state or local scope.

Size of Grant - 38 awards totaling \$16 million

Cost Sharing or Match – No

Web - <http://www.nsf.gov/pubs/2009/nsf09504/nsf09504.htm>

Deadline Date – 1st Friday in January annually Letter of Intent, 4th Friday in June annually Proposal

Grant Resource – National Science Foundation

Category – Industry/University Cooperative Research Centers Program (I/UCRC)

Description – The Industry/University Cooperative Research Centers (I/UCRC) program develops long-term partnerships among industry, academe, and government. Collaboration with international research sites or centers can occur when a U.S.-based research site submits a supplement request for collaborative work with an international partner.

Size of Grant – 8 centers and 12 planning grants totaling \$9 million

Cost Sharing or Match – Yes

Web - http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5501

Deadline Date – February 20, May 20, September 20 annually for workshop proposals, planning proposals accepted anytime

Grant Resource – National Science Foundation

Category – International Planning Visits and Workshops

Description – Grants from the Office of International Science and Engineering (OISE) contribute to NSF's mission by supporting highly meritorious research and education activities that present unique opportunities and offer potentially high benefits because of the vital and integral nature of the foreign collaboration. OISE support is intended to both advance the research and develop a cadre of scientists and engineers who will play a leadership role in forging international collaborations of great value to the nation. International Planning Visit/Workshop Awards support the early phases of planning, developing, and coordinating a research and education activity with foreign partners. OISE **does not** provide support for U.S. scientists and engineers to participate in international conferences or congresses; nor does it provide support for such meetings. OISE **can** support workshops that may immediately precede or follow a larger-scale conference when they add an international dimension that is focused on building research collaboration.

Size of Grant – 50 awards/yr totaling \$1.5 million

Cost Sharing or Match – No

Web - <http://www.nsf.gov/pubs/2004/nsf04035/nsf04035.htm>

Deadline Date – 2nd Tuesday in September annually

Grant Resource – National Science Foundation

Category – International Research Fellowship Program (IRFP)

Description – The objective of the International Research Fellowship Program (IRFP) is to introduce scientists and engineers in the early stages of their careers to international collaborative research opportunities, thereby furthering their research capacity and global perspective and forging long-term relationships with scientists, technologists and engineers abroad. These awards are available in any field of science and engineering research and education supported by NSF.

Size of Grant – 35 awards ranging from \$57,000 to \$200,000

Cost Sharing or Match – No

Web - http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5179

Grant Resource – National Science Foundation

Category – International Research Network Connections

Description – NSF solicits proposals for International Research Network Connections (IRNC). NSF expects to make a small number of awards to provide network connections linking U.S. research networks with peer networks in other parts of the world. Links funded by this program are intended to support science and engineering research and education applications.

Cost Sharing or Match – No

Web - http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=12767

Deadline Date – February 26, 2009 Preliminary Proposal, August 4, 2009 Invited Proposals

Grant Resource – National Science Foundation

Category – Partnerships for International Research and Education (PIRE)

Description – The Partnerships for International Research and Education (PIRE) program seeks to catalyze a higher level of international engagement in the U.S. science and engineering community by supporting innovative, international research and education collaborations. The program will enable U.S. scientists and engineers to establish collaborative relationships with international colleagues in order to advance new knowledge and discoveries at the frontiers of science and engineering and to promote the development of a diverse, globally-engaged U.S. scientific and engineering workforce.

Size of Grant - 20 awards totaling \$40 million

Cost Sharing or Match – No

Web - http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=12819

Deadline Date – August 18, 2008, Supplement proposals welcome anytime

Grant Resource – National Science Foundation

Category – Research Experiences for Undergraduates

Description – The REU program features two mechanisms for support of student research: (1) *REU Sites* are based on independent proposals to initiate and conduct projects that engage a number of students in research. REU Sites may be based in a single discipline or academic department, or on interdisciplinary or multi-department research opportunities with a coherent intellectual theme. **Proposals with an international dimension are welcome.** A partnership with the Department of Defense supports REU Sites in DoD-relevant research areas. (2) *REU Supplements* may be requested for ongoing NSF-funded research projects or may be included as a component of proposals for new or renewal NSF grants or cooperative agreements.

Size of Grant – 150 new REUs and 1600 renewals totaling \$57 million

Cost Sharing or Match – No

Web - http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=503210

Deadline Date - February 17, 2009 Implementation, Education Research, and Targeted Infusion Projects; Planning Grants, February 24, 2009 Innovation through Institutional Integration (I3), April 17, 2009 ACE Implementation Projects, August 25, 2009 Innovation through Institutional Integration (I3)

Grant Resource – National Science Foundation

Category – Historically Black Colleges and Universities – Undergraduate Programs (HBCU-UP)

Description- International research experiences and workforce globalization - In support of this aim, HBCU-UP will consider the inclusion of high quality international research experiences for U.S. students and faculty who are conducting STEM research abroad in collaboration with foreign investigators, incorporated within proposals.

Cost Sharing or Match – No

Web - <http://www.nsf.gov/pubs/2009/nsf09512/nsf09512.htm>

Grant Resource – National Science Foundation

Category – Cyberinfrastructure Training, Education, Advancement, and Mentoring for Our 21st Century Workforce (CI-TEAM)

Description – This solicitation seeks **two** types of project proposals, both aimed at the preparation of a diverse, cyberinfrastructure-savvy science and engineering workforce. The *Demonstration Project* is exploratory in nature and may be somewhat limited in scope and scale. The *Implementation Project* is generally larger in scope or scale and draws on prior experience with the activities or the teams proposed. Both types of projects consist of collaborations with expertise in multiple disciplines and involve partnerships that support integrated research and learning among diverse organizations including, as appropriate, academic institutions of higher learning, primary and secondary schools, government, industry, professional societies, other not-for-profit organizations, and **international partners.**

Cost Sharing or Match – No

Web - http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=12782

U.S. DEPARTMENT OF EDUCATION

Deadline Date – March 23, 2009

Grant Resource – US Department of Education

Category – Fund for the Improvement of Postsecondary Education (FIPSE)--Special Focus Competition: European Union-United States Atlantis Program; Notice Inviting Applications for New Awards for Fiscal Year (FY) 2009 – CFDA 84.116J

Description – This priority is designed to support the formation of educational consortia of American and European institutions to support cooperation in the coordination of curricula, the exchange of students, and the opening of educational opportunities between the United States (U.S.) and the European Union (EU). This priority relates to the purpose of the European Union-United States Atlantis (Atlantis) Program to develop and implement undergraduate joint or dual degree programs, or short-term exchange programs.

Size of Grant – 45 awards of \$150,000/year – Average 1st year awards in multiple year projects of \$35,000 for a Policy Oriented Measures grant, \$45,000 for a Mobility grant, and \$116,000 for a Transatlantic Degree grant

Cost Sharing or Match – No

Web – <http://www.ed.gov/legislation/FedRegister/announcements/2008-4/122208a.html>

Deadline Date – December 18, 2008

Grant Resource – US Department of Education

Category – Office of Postsecondary Education; Overview Information: Fund for the Improvement of Postsecondary Education; (FIPSE)--Special Focus Competition: U.S.-Brazil Higher Education Consortia Program; Notice Inviting Applications for New Awards for Fiscal Year (FY) 2009 – CFDA 84.116M

Description – This program supports proposals designed to support the formation of educational consortia of United States (U.S.) and Brazilian institutions to support cooperation in the coordination of curricula, the exchange of students, and the opening of educational opportunities between the U.S. and Brazil. Two-year complementary grants support activities that complement partnerships between or among U.S. and Brazilian colleges and universities. These objectives are--(1) outreach to local or regional communities in both countries; (2) scale-up of current activities to include additional partners and organizations; and (3) the dissemination of project results.

Size of Grant – 14 awards of \$90,000/year for 4 year projects

Cost Sharing or Match – No

Web - <http://www.ed.gov/legislation/FedRegister/announcements/2008-4/111308b.html>

Deadline Date – January 15, 2009

Grant Resource – US Department of Education

Category – Cooperative Civic Education and Economic Education Exchange Program – CFDA 84.304A

Description – This program supports proposals to improve the quality of civic education through cooperative civic education exchange programs with emerging democracies. Each applicant must propose to carry out each of the following activities: (1) Provide to the participants from eligible countries—

(A) Seminars on the basic principles of United States constitutional democracy, including seminars on the major governmental institutions and systems in the United States, and visits to such institutions;

(B) Visits to school systems, institutions of higher education, and nonprofit organizations conducting exemplary programs in civics and government education, in the United States;

(C) Translations and adaptations with respect to United States civics and government education, curricular programs for students and teachers, and in the case of training programs for teachers, translations and adaptations into forms useful in schools in eligible countries, and joint research projects in such areas; and

(D) Independent research and evaluation assistance to determine the effects of the cooperative education exchange programs on students' development of the knowledge, skills, and traits of character essential for the preservation and improvement of constitutional democracy.

(2) Provide to the participants from the United States--

(A) Seminars on the histories and systems of government of eligible countries;

(B) Visits to school systems, institutions of higher education, and organizations conducting exemplary programs in civics and government education, located in eligible countries;

(C) Assistance from educators and scholars in eligible countries in the development of curricular materials on the history and government of such countries that are useful in United States classrooms;

(D) Opportunities to provide onsite demonstrations of United States curricula and pedagogy for educational leaders in eligible countries;

and

(E) Independent research and evaluation assistance to determine the effects of the cooperative education exchange programs assisted through this grant on students' development of the knowledge, skills, and traits of character essential for the preservation and improvement of constitutional democracy.

(3) Assist participants from eligible countries and the United States to participate in international conferences on civics and government education for educational leaders, teacher trainers, scholars in related disciplines, and educational policymakers.

Size of Grant – 2 awards of \$1 million for 3 year projects

Cost Sharing or Match – No

Web - <http://www.ed.gov/legislation/FedRegister/announcements/2008-4/121608c.html>

Deadline Date – December 3, 2008

Grant Resource – US Department of Education

Category – Fulbright-Hays Faculty Research Abroad Fellowship Program – CFDA 84.019A

Description – A research project that focuses on one or more of the following geographic areas: Africa, East Asia, Southeast Asia and the Pacific Islands, South Asia, the Near East, East Central Europe and Eurasia, and the Western Hemisphere (excluding the United States and its territories). Further priority is given to projects that focus on any of the seventy-eight (78) languages deemed critical on the U.S. Department of Education's list of Less Commonly Taught Languages (LCTLs).

Size of Grant – 23 awards of up to \$115,000 for 3-12 month projects

Cost Sharing or Match – No

Web - <http://www.ed.gov/legislation/FedRegister/announcements/2008-4/102208c.html>

Deadline Date – November 13, 2008

Grant Resource – US Department of Education

Category – Fulbright-Hays Doctoral Dissertation Research Abroad (DDRA) Fellowship Program in modern foreign languages and area studies

Description – This priority is for a research project that focuses on one or more of the following geographic areas: Africa, East Asia, Southeast Asia and the Pacific Islands, South Asia, the Near East, East Central Europe and Eurasia, and the Western Hemisphere (excluding the United States and its territories). Further priority is given to projects that focus on any of the seventy-eight (78) languages deemed critical on the U.S. Department of Education's list of Less Commonly Taught Languages (LCTLs) found below. Akan (Twi-Fante), Albanian, Amharic, Arabic (all dialects), Armenian, Azeri (Azerbaijani), Balochi, Bamanakan (Bamana, Bambara, Mandikan, Mandingo, Maninka, Dyula), Belarusian, Bengali (Bangla), Berber (all languages), Bosnian, Bulgarian, Burmese, Cebuano (Visayan), Chechen, Chinese (Cantonese), Chinese (Gan), Chinese (Mandarin), Chinese (Min), Chinese (Wu), Croatian, Dari, Dinka, Georgian, Gujarati, Hausa, Hebrew (Modern), Hindi, Igbo, Indonesian, Japanese, Javanese, Kannada, Kashmiri, Kazakh, Khmer (Cambodian), Kirghiz, Korean, Kurdish (Kurmanji), Kurdish (Sorani), Lao, Malay (Bahasa Melayu or Malaysian), Malayalam, Marathi, Mongolian, Nepali, Oromo, Panjabi, Pashto, Persian (Farsi), Polish, Portuguese (all varieties), Quechua, Romanian, Russian, Serbian, Sinhala (Sinhalese), Somali, Swahili, Tagalog, Tajik, Tamil, Telugu, Thai, Tibetan, Tigrigna, Turkish, Turkmen, Ukrainian, Urdu, Uyghur/Uigur, Uzbek, Vietnamese, Wolof, Xhosa, Yoruba, and Zulu.

Size of Grant - 127 awards for up to \$60,000 for 6-12 month projects

Cost Sharing or Match – No

Web - <http://www.ed.gov/legislation/FedRegister/announcements/2008-3/092408b.html>

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES

Deadline Date – May 15, 2009 Letter of Intent, June 15, 2009 Proposal

Grant Resource – US Department of Health and Human Services – National Institutes of Health, Fogarty International Center

Category – Centers for HIV/Aids Research (CFAR)

Description – Providing scientific leadership and institutional infrastructure dedicated to AIDS research
Stimulating scientific collaboration in interdisciplinary and translational research
Promoting development of sustainable multidisciplinary HIV/AIDS research programs at each CFAR institution

Strengthening capacity for HIV/AIDS research in developing countries

Fostering scientific communication

Sponsoring training and education

Promoting knowledge of CFAR research findings and the importance of AIDS research through community outreach

Promoting and supporting innovative NIH HIV/AIDS research initiatives

Establishing collaborative research between CFARs, and supporting HIV/AIDS research networks
Facilitating technology transfer and development through promotion of scientific interactions between
CFARs and industry

Supporting research on prevention and treatment of HIV infection in hard-to-reach domestic populations,
especially in inner city, rural poor, and disadvantaged minorities.

Size of Grant - \$750,000/yr for 5 year projects

Cost Sharing or Match – No

Web - <http://grants.nih.gov/grants/guide/pa-files/PA-09-103.html>

Deadline Date – March 6, 2009 Letter of Intent, April 3, 2009 Proposal

Grant Resource – US Department of Health and Human Services – NIH, Fogarty International Center

Category – Informatics Training for Global Health (ITGH) (D43)

Description – The Fogarty International Center, in collaboration with the National Library of Medicine and the National Human Genome Research Institute, invites applications for the establishment or continuation of training programs in Informatics for Global Health to address the needs of low and middle income country institutions for experts in information technologies and associated sciences to conduct and contribute to biomedical and behavioral research.

Size of Grant – 6 awards totaling \$1.5 million

Cost Sharing or Match – No

Web - <http://grants.nih.gov/grants/guide/rfa-files/RFA-TW-09-001.html>

Deadline Date – February 17, 2009 Letter of Intent, March 17, 2009 Proposal

Grant Resource – US Department of Health and Human Services – NIH, Fogarty International Center

Category – Research on Integrity in Collaborative Research (R21)

Description – This FOA issued by NCCR and ORI encourages research grant applications from institutions/organizations that propose to study research integrity as it relates to collaborative interactions and/or activities. Applications must address the influence of collaborative interactions and/or activities on research integrity in at least one of the following areas that are of particular interest to the ORI and NIH: the clarification of community norms and standards, the effectiveness of self-regulation, the societal, organizational, group, or individual factors that affect integrity in research, both positively and negatively, or the impacts of non-adherence to accepted codes of conduct. The proposed project must challenge existing paradigms, be developed around an innovative hypothesis or address critical barriers to progress in understanding the multiple factors that underlie deviation from integrity in collaborative research. Proposals must have clear relevance to biomedical, behavioral health sciences, or health services research.

Size of Grant – 3 awards for \$850,000 for 2 year projects

Cost Sharing or Match – No

Web - <http://grants.nih.gov/grants/guide/rfa-files/RFA-RR-09-004.html>

Deadline Date – February 5, October 5, June 5 annually

Grant Resource – US Department of Health and Human Services - NIH

Category – International Research Collaboration on Drug Abuse and Addiction Research (R01)

Description – This Program Announcement (PA) solicits collaborative research proposals on drug abuse and addiction that take advantage of special opportunities that exist outside the United States. Special opportunities include access to unusual talent, resources, populations, or environmental conditions in other countries that will speed scientific discovery. While the priorities will change from year to year, in FY09 priority areas include: linkages between HIV/AIDS and drug abuse, methamphetamine abuse, inhalant abuse, smoking during pregnancy, and drugs and driving.

Cost Sharing or Match – No

Web - <http://grants.nih.gov/grants/guide/pa-files/PA-09-020.html>

Deadline Date – September 29, 2009, January 2010, May 2010, September 2010

Grant Resource – US Department of Health and Human Services – NIH, Fogarty International Center

Category – Fogarty International Research Collaboration – Basic Biomedical (FIRCA-BB) Research Award (R03)

Description – This Funding Opportunity Announcement facilitates collaborative basic biomedical research between scientists supported by the National Institutes of Health and investigators in low- to middle-income countries. All non-AIDS-related biomedical research topics that are supported by the NIH, including basic, clinical, and applied research that does not involve behavioral or social science topics and techniques, are eligible for inclusion under the FIRCA-BB program.

Size of Grant – 35 awards for \$50,000/yr for 3 year projects

Cost Sharing or Match – No

Web - <http://grants.nih.gov/grants/guide/pa-files/PAR-08-222.html>

Deadline Date – September 29, 2009, September 29, 2010

Grant Resource – US Department of Health and Human Services – NIH – Fogarty International Center

Category – Fogarty International Research Collaboration – Behavioral and Social Sciences (FIRCA-BSS) Research Award

Description – This Funding Opportunity Announcement facilitates collaborative behavioral and social sciences research between scientists supported by the National Institutes of Health and investigators in low- and middle-income countries. Special consideration will be given to proposed research that addresses significant global health problems, particularly those of high relevance to an LMIC country or region. This FOA includes an additional review criterion of “Research Capacity Building”

Size of Grant – 20 awards of \$50,000/yr for 3 year projects

Cost Sharing or Match – No

Web - <http://grants.nih.gov/grants/guide/pa-files/PAR-08-223.html>

Deadline Date – August 31, 2009 Letter of Intent, September 29, 2009 Proposal

Grant Resource – US Department of Health and Human Services – NIH – Fogarty International Center

Category – Millennium Promise Awards: Non-communicable Chronic Diseases Research Training Program (NCoD) (D43)

Description – This research training program is designed to build research capacity in low- and middle-income countries (LMICs) in the fields related to cancer, cerebrovascular disease including stroke, lung disease including chronic obstructive pulmonary disease (COPD) and environmental factors including indoor air pollution, and obesity and lifestyle factors related to these conditions as well as genetics of non-communicable diseases.

Size of Grant – 7 awards and 2 planning grants for \$220,000/yr for 5 year projects

Cost Sharing or Match – No

Web - <http://grants.nih.gov/grants/guide/pa-files/PAR-08-175.html>

Deadline Date – July 18, 2009 Letter of Intent, August 18, 2009 Proposal

Grant Resource – US Department of Health and Human Services - NIH

Category – PHASE II Comprehensive ICOHRTA AIDS/TB (U2R)

Description – This Funding Opportunity Announcement solicits renewal and new Phase II applications in the International Clinical, Operations and Health Services Research Training Award for AIDS and TB program. The applications from a Research Training Unit, composed of a planning grant recipient and the U.S. partner institution chosen by the Phase I recipient, must propose, in an integrated manner, a comprehensive training program that will strengthen the capacity in the foreign country to conduct clinical research and implementation science, including operations and health services research focused on HIV infection, TB, and, where relevant, HIV/TB co-infection prevention, care and treatment.

Size of Grant – 6 awards for \$275,000 for 1st of 5 year projects and \$550,000/yr for Training Unit proposals

Cost Sharing or Match – No

Web - <http://grants.nih.gov/grants/guide/pa-files/PAR-08-155.html>

Deadline Date – August 14, 2009, August 14, 2010 Letter of Intent, September 16, 2009, September 16, 2010 Proposal

Grant Resource – US Department of Health and Human Services – NIH – Fogarty International Center

Category – Global Infectious Disease Research Training Program Award (D43)

Description – The purpose of this announcement is to invite applications for U.S. and developing country institutions for programs to provide infectious disease (excluding HIV/AIDS) research training to scientists and health professionals in order to build sustainable research capacity at institutions in low- and middle-income endemic countries.

Size of Grant – 6 awards, 2 planning grants, and 2 renewals

Cost Sharing or Match – No

Web - <http://grants.nih.gov/grants/guide/pa-files/PAR-08-154.html>

Deadline Date – August 14, 2009 Letter of Intent, September 16, 2009 Proposal

Grant Resource – US Department of Health and Human Services – NIH – Fogarty International Center

Category – International Research in Infectious Diseases including AIDS (IRIDA) Program (R01)

Description – This funding opportunity announcement issued by the NIAID solicits Research Grant applications from organizations/institutions in eligible foreign countries that propose research related to infectious diseases that are of interest to that country.

Size of Grant – 10 awards for \$100,000/yr for 4 year projects

Cost Sharing or Match – No

Web - <http://grants.nih.gov/grants/guide/pa-files/PA-08-130.html>

Deadline Date – February 5, June 5, October 5 annually

Grant Resource – US Department of Health and Human Services – NIH – Fogarty International Center

Category – Prevention Research with HIV Positive Individuals (R01)

Description – This Funding Opportunity Announcement issued by the National Institute Mental Health, National Institute of Nursing Research, and the Eunice Kennedy Shriver National Institute of Child Health and Human Development invites interdisciplinary studies addressing the psychosocial and behavioral consequences of HIV disease. Over the past decade, secondary prevention in HIV disease, or “positive prevention”, has received a much needed increase in attention. Gains have been made toward the aim of decreasing HIV transmission behaviors and improving quality of life among individuals living with HIV/AIDS, as well as understanding factors that are important to healthy coping.

Cost Sharing or Match – No

Web - <http://grants.nih.gov/grants/guide/pa-files/PA-08-107.html>

Deadline Date – April 16, 2009 Letter of Intent, May 15, 2009 Proposal

Grant Resource – US Department of Health and Human Services – NIH – Fogarty International Center

Category – Brain Disorders in the Developing World: Research Across the Lifespan (R01)

Description – This Funding Opportunity Announcement encourages grant applications proposing the development and conduct of innovative, collaborative research and research training projects, between High Income country and low- to middle-income country scientists, on nervous system function and disorders throughout life, relevant to LMICs. The collaborative research programs are expected to contribute to the long-term goals of building sustainable research capacity in LMICs to address nervous system development, function and impairment throughout life and to lead to diagnostics, treatment and prevention strategies that are applicable worldwide.

Size of Grant – 10 applications for 5 year projects

Cost Sharing or Match – No

Web - <http://grants.nih.gov/grants/guide/pa-files/PA-08-112.html>

Deadline Date – February 5, June 5, October 5 annually

Grant Resource – US Department of Health and Human Services – NIH - NIAAA

Category – International Research Collaboration on Alcohol and Alcoholism (U01)

Description – The National Institute on Alcohol Abuse and Alcoholism invites applications for the purpose of fostering international collaborations between alcohol research investigators within the United States and investigators located at non-United States laboratories and performance sites.

Size of Grant – 5 awards totaling \$1 million

Cost Sharing or Match – No

Web - <http://grants.nih.gov/grants/guide/pa-files/PA-08-004.html>

Deadline Date – November 8, 2009 Letter of Intent, December 8, 2009 Proposal

Grant Resource – US Department of Health and Human Services

Category – Americas Fellowship in Reproductive Sciences (F05)

Description – The goal of this Americas Fellowship in Reproductive Sciences Program is to provide a unique opportunity to qualified Latin American reproductive scientists, at junior or mid-career level, to receive up to three years of research training in the United States (U.S.) or Canada.

Size of Grant – Salary in accordance with sponsoring US institution + tuition, fees & health insurance

Cost Sharing or Match – No

Web - <http://grants.nih.gov/grants/guide/pa-files/PA-07-453.html>

Deadline Date – June 29, 2009 Letter of Receipt, July 29, 2009 Proposal

Grant Resource – US Department of Health and Human Services

Category – International Extramural Associates Research Development Awards (IEARDA) (G11)

Description – This program will provide training in NIH policies and procedures through a distance learning and NIH residency program, as well as funding to augment or expand upon existing research administrative infrastructure (e.g., Office of Research, Office of Sponsored Projects).

Size of Grant - \$35,000 stipend + \$15,000 housing and travel allowance

Cost Sharing or Match – No

Web - <http://grants.nih.gov/grants/guide/pa-files/PA-07-453.html>

Deadline Date – March 16, July 16, November 16 annually

Grant Resource – US Department of Health and Human Services

Category – Harmonization of Longitudinal Cross-National Surveys of Aging (R21)

Description – This funding opportunity announcement solicits Exploratory/Developmental grant applications from applicant organizations that propose ex ante or ex post harmonization of nationally representative panel surveys on aging with the Health and Retirement Study or international studies that utilize a survey instrument that is harmonized with the Health and Retirement Study.

Size of Grant - \$275,000 for 2 year projects

Cost Sharing or Match – No

Grant Resource – US Department of State

Category – Fulbright mtvu Fellowship

Description – (1) The [Fulbright U.S. Student Program](#) offers opportunities for American students to study, do research, and/or teach English abroad. The [Fulbright FLTA Program](#) provides young teachers of English as a Foreign Language the opportunity to refine their teaching skills and broaden their knowledge of American cultures and customs while strengthening the instruction of foreign languages at colleges and universities in the United States. (2) The [Fulbright Foreign Student Program](#) offers opportunities for foreign students to study, do research, and/or teach their native language in the U.S. The [International Fulbright Science and Technology Award](#), a component of the Fulbright Foreign Student Program, is for doctoral study at prestigious U.S. institutions in science, technology, or engineering for up to 40 outstanding foreign students. (3) The [Fulbright U.S. Scholar Program](#) offers opportunities for American scholars to conduct research, lecture, and/or consult with other scholars and institutions abroad. The [Fulbright U.S. Scholar Program](#) sends approximately 1,100 American scholars and professionals per year to approximately 130 countries, where they lecture and/or conduct research in a wide variety of academic and professional fields. The [Fulbright Specialists Program](#), a short-term complement to the traditional Fulbright Scholar Program, sends U.S. faculty and professionals to serve as expert consultants on curriculum, faculty development, institutional planning, and related subjects at overseas academic institutions for a period of 2 to 6 weeks. (4) The Fulbright Visiting Scholar Program offers opportunities for foreign scholars to conduct post-doctoral research and/or lecture in the U.S. The [Fulbright Scholar-in-Residence \(SIR\) Program](#) enables U.S. colleges and universities to host foreign academics to lecture on a wide range of subject fields for a semester or academic year. Preference is given to institutions developing an international agenda and/or serving a minority audience, including Historically Black Colleges and Universities, Hispanic Serving Institutions, Tribal Colleges, small liberal arts colleges, and community colleges. Approximately 50 grants are awarded annually. The [Fulbright Visiting Scholar Program](#) provides grants to approximately 850 foreign scholars from over 100 countries to conduct post-doctoral research at U.S. institutions from an academic semester to a full academic year. The new [Fulbright Interfaith Community Action Program](#) is designed to foster the development of more peaceful and productive dialogue and action across religious and cultural boundaries. The scholars

engage in a semester-long U.S. exchange experience that includes collaborative learning centered on interfaith and intercultural dialogue and collaboration. The Fulbright Program offers opportunities for American teachers to teach abroad. The Fulbright Program offers opportunities for Foreign teachers to teach English and other subjects in the U.S.

MISCELLANEOUS RESOURCES

Grant Resource – Compton Foundation

Category – Peace & Security, Population, Environment

Description – foster human and ecological security by addressing contemporary threats to these inalienable rights. We support responsible stewardship that respects the rights of future generations to a balanced and healthy ecology, both personal and global, allowing for the full richness of human experience. To realize this vision, the Compton Foundation focuses most of its grantmaking in the areas of [Peace & Security](#), [Environment & Sustainability](#), and [Population & Reproductive Health](#), with a special emphasis on projects that explore the interconnections between these categories.

Cost Sharing or Match – No

Web - <http://www.comptonfoundation.org/>

Grant Resource – Center for Human Studies

Category – Summer Seminars, Fellowships & Scholarships

Description – Scholarships are awarded to undergraduates, recent graduates, and graduate students from any nation to attend summer seminars relating to the classical liberal or libertarian perspective. The following seminars are available: Foundations of Liberty; Liberty & Society; Globalization & Poverty; Globalization Weekend Seminar; Society and the Environment; Liberty, Art & Culture; Liberty & Current Issues; Experimental Economics Seminar; and Social Change Workshop.

Cost Sharing or Match – No

Web - <http://www.theihs.org/>

Grant Resource – Christensen Fund

Category – Biocultural Issues

Description – The sponsor will focus its bio-cultural grant making on the Greater South West (U.S.A. and Mexico); Turkey, Iran, and Central Asia; the African Rift Valley (Ethiopia); and Northern Australia and Melanesia. The sponsor's thematic interests in the priority regions are: the persistence and adaptation of indigenous systems for managing landscapes that sustain cultural and biological value and diversity; maintaining the diverse agricultural, hunting, gathering and cooking traditions that sustain community foodways, diets, livelihoods and wellbeing; including the traditional varieties of crops first domesticated in our geographic regions essential for the future of agriculture globally; artistic and cultural expression—both traditional and contemporary—to maintain continuities of relationship with place and the experience of the natural world, including music, dance and associated expression; and “bothways” education in indigenous societies that better enables people to access and value both heritage and innovation within their own societies, as well as engage richly with the rest of the world.

Cost Sharing or Match – No

Web - <http://www.christensenfund.org/index.html>

Grant Resource – Global Health Council

Category – Health Care, Advocacy, Press

Description – The Global Health Council works to ensure that all who strive for improvement and equity in global health have the information and resources they need to succeed. To achieve this goal, the Council serves as the voice for action on global health issues and the voice for progress in the global health field.

Description – Applications for awards for short-term travel and research in Europe and Eurasia.

Cost Sharing or Match – No

Web - <http://www.irex.org/programs/stg/index.asp>

Grant Resource – International Research and Exchanges Board

Category – Policy-Connect Collaborative Research

Description – The Policy-Connect Collaborative Research Grants Program supports cutting-edge collaborative research on specific topics and regions each year. IREX expects to award four grants this year for projects up to 12 months in length. One grant will be awarded for research on Southeast Europe, two grants for research on Eurasia, and one grant for research with a cross-regional focus. Collaborative teams may be comprised of no more than three US scholars.

Size of Grant - \$30,000

Cost Sharing or Match – No

Web - <http://www.irex.org/programs/policy-connect/index.asp>

Grant Resource – Arthur B. Schultz Foundation

Category – Microenterprises, Global Understanding, Disabled Mobility

Description – **International Microenterprise** - We consider funding a variety of small-scale microenterprise projects that subscribe to the general principles of social and/or environmental payback. ABSF firmly believes business has an obligation to be socially and environmentally responsible. **Global Understanding** - Our objective is to promote peace, learning, and understanding among peoples of the world through opportunities for progressive education and dialogue, especially among students of the younger generation. Our current focus addresses the Israeli-Palestinian conflict and the divide between Western and Islamic cultures. **Disabled Mobility Solutions** - We hope to address the overwhelming need for appropriate wheelchairs and other mobility aids in the developing world by supporting a variety of innovative and replicable mobility solutions.

Cost Sharing or Match – No
