FOR IMMEDIATE RELEASE

Oklahoma Company Signs Export Contract With China.

Oklahoma City - David Woods, CEO of EXIM Group, LLC an Oklahoma based export and import company, recently announced the signing of an exclusive agreement with Jing Zhou Chemical Company in China. The agreement provides Jing Zhou with the exclusive rights to distribute products for J&J Solutions, LLC, a Perry, Oklahoma company. The products will be sold by Jing Zhou's 25 sales organizations located throughout Mainland China.

David Lindley, President of EXIM Group, LLC completed the agreement during a recent trip to China. According to Lindley, "We have been working with Jing Zhou Chemical Company for quite some time on a variety of projects. They are thrilled to be importing products from Oklahoma."

Jing Zhou Chemical Company is one of China's largest petro-chemical companies and is listed on the Shanghai stock exchange.

J&J Solutions serves the gas industry with very unique products to help marginal gas wells produce significantly more gas. According to Lindley, "They are a unique Oklahoma company with tremendous world demand for their

products. In addition to China, we have helped J&J establish distribution in the Middle East, North Africa and other US locations. We will have distribution contracts established for J&J products into Canada, India, Mexico, Russia and South America within the next few months.”

EXIM Group is also in the process of working with numerous other Oklahoma companies, helping them establish and expand their export and import initiatives. According to Woods, “it’s amazing how many countries want Oklahoma products, however many companies just don’t know how to take that next step toward becoming a global company. That’s what we love to do, and Oklahoma is a great environment to help companies do just that.”

EXIM Group currently has 3 offices in the U.S., an office in China, and an office in India, with plans to expand into Vietnam, Mexico, Russia, Canada, and South America within then next year.
