DETAILS:

Applications are now being accepted for 2013 DataONE Summer Internships. Interns must be at least 18 years of age by the program start date. Prospective interns can apply for one of the specified projects listed at: <http://www.dataone.org/internships/>

These projects are:

- Next Generation Data Environment: Semantically-Enabling the DataONE Metadata Environment
- Ontology Mappings in the Earth and Environmental Sciences
- Evaluation of Ontology Coverage for Curation
- Integrating Data Stories into DataONE Education and Community Engagement Products
- Data Policies for Public Participation in Scientific Research
- Bi-level Metadata Registry Development
- PBase: Provenance as a First-class Citizen in DataONE
- Build Fundamental Components for Provenance-aware Model Exploration, Evaluation, and Benchmarking Cyber-infrastructure Prototype
- A Visualization Tool for Provenance in DataONE

The deadline for applications is **March 17th, 2013**.

Applicants must have a valid Visa to work in the US and be resident in the US during the internship period.

The internship runs from **May 27 - July 26** and interns will receive a stipend of **\$5,000**. In addition, required travel expenses will be borne by DataONE. Participation in the program after the mid-term is contingent on satisfactory performance.

Full information and application details can be found at: <http://www.dataone.org/internships/>
