AGENDA ITEM #6:

Student Advisory Board.

SUBJECT: Presentation and acceptance of the 2020 Annual Report of the Student Advisory Board.

RECOMMENDATION:

It is recommended that the State Regents acknowledge receipt of the 2020 Annual Report of the Student Advisory Board.

BACKGROUND:

In 1988, the Oklahoma Legislature enacted House Bill 1801, creating the Student Advisory Board (SAB). The purpose of the Student Advisory Board is to communicate to the Oklahoma State Regents for Higher Education the views and interests of all Oklahoma colleges and university students on issues that relate to the constitutional and statutory responsibilities of the State Regents. In representing students, the Student Advisory Board combines the opinions of students with quality research to develop the best proposals and recommendations for the Oklahoma State System of Higher Education. Seven members are elected annually by delegates to the Oklahoma Student Government Association. Members represent the public tier and independent colleges, and they serve a one-year term (May through April).

The Student Advisory Board policy requires the Student Advisory Board to submit an annual written report of activities to the State Regents.

POLICY ISSUES:

This action is consistent with the State Regents’ Student Advisory Board policy.

ANALYSIS:

The recommendations are listed below. A copy of the report is attached, which includes other activities of the Student Advisory Board during the 2019-2020 academic year.

- The Student Advisory Board recommends that the Oklahoma State Regents for Higher Education should require colleges and universities to offer all 4 types of accommodation for all classes hosted by the university. Accommodation types include 1) presentation, 2) response, 3) setting, and 4) timing/scheduling.

- The Student Advisory Board recommends that the Oklahoma State Regents for Higher Education should commission a study on the four-year graduation rates of public higher education institutions. The study could determine if factors including, but not limited to financial stability, transfer student status, and community origin affect an Oklahoma Student’s ability to graduate in four years.
• The Student Advisory Board recommends that the Oklahoma State Regents for Higher Education form a board that contains diversity practitioners from higher education institutions from across the state and is chaired by an employee of the Oklahoma State Regents for Higher Education. This board can be used as an advisory board to the State Regents, but it can also be used towards the higher education institutions that do not have the resources offices that focus on diversity, equity, or inclusion.

• The Student Advisory Board recommends that the Oklahoma State Regents for Higher Education have college campuses expand their health resources available to students. Due to recent events it is clear that health and safety of students should be a top concern when face to face classes possibly resume in the fall.

• The Student Advisory Board recommends that the Oklahoma State Regents for Higher Education encourage colleges and university’s boost efforts in green energy and sustainability.

• The Student Advisory Board urges the Oklahoma State Regents for Higher Education to require member institutions to give mental health awareness training to new students to educate them on the importance of mental health and the resources that are available to them on the individual campuses.

Supplement available upon request.

Contracts and Purchases.

SUBJECT: Approval of FY21 Contracts and Purchases in excess of $100,000.

RECOMMENDATION:

It is recommended that the State Regents approve FY-2021 purchases for amounts that are in excess of $100,000.

BACKGROUND:

Agency purchases are presented for State Regents’ action. They relate to previous board action and the approved agency budgets.

POLICY ISSUES:

The recommended action is consistent with the State Regents’ purchasing policy which requires State Regents’ approval of purchases in excess of $100,000.

ANALYSIS:

A number of agency purchases for equipment maintenance, network circuits, lease of office space, memberships, professional services, and postage must be in place on July 1st of each year due to vendor requirements for renewal or payments that must be made in July. Several of these purchases are in excess of $100,000 and require State Regents’ approval prior to issuing a purchase order.

Purchases Over $100,000

AGENDA ITEM #9:
Policy.

SUBJECT: Posting of revisions to State Regents Policy 2.5 State Regents’ Committees.

RECOMMENDATION:

It is recommended that the State Regents post revisions to State Regents’ Policy 2.5 State Regents’ Committees.

BACKGROUND:

Given the changing landscape of higher education, at their meeting on Thursday, March 23, 2017, the State Regents approved the formation of a citizens’ Task Force on the Future of Higher Education to undertake an extensive planning initiative that will position the Oklahoma state system of higher education to better meet current and future challenges. The efforts of the Task Force emphasized the state system’s focus on modernization, efficiencies, and innovation.

The State Regents appointed membership to the Task Force on the Future of Higher Education at their meeting on Thursday, April 20, 2017. The Task Force was comprised of the State Regents, private citizens, college and university representatives, and the designees of Governor Mary Fallin, Speaker of the Oklahoma House of Representatives Charles McCall, and Senate President Pro Tempore Mike Schulz. Citizen members of the Task Force were well-respected Oklahomans who come from a variety of professional and educational backgrounds and represent different geographic regions within the state.

Dr. William E. “Brit” Kirwan, Chancellor Emeritus of the University System of Maryland, served as lead advisor to the task force. Dr. Kirwan is a senior fellow at the Association of Governing Boards of Universities and Colleges (AGB) and previously served as president of The Ohio State University and the University of Maryland. Dr. Sally Mason, President Emerita of the University of Iowa, and Mr. Ken Knueven also served as AGB consultants to the Task Force.

The Task Force convened in May 2017 to begin discussion on the development of recommendations that best position Oklahoma’s state system of higher education to meet the future challenges of maintaining accessibility and affordability without compromising educational quality.

The work of the Task Force was primarily conducted through four subcommittees:

- College Degree Completion and Workforce Development Initiatives
- Academic Program Innovations and Online Education
- System Structure
- Fiscal Solutions, Efficiencies, Affordability, and Technology.

Members were assigned to one of these four subcommittees, which met regularly from June through November 2017. During subcommittee meetings, members studied best practices across the nation and in
Oklahoma and discussed how to develop recommendations that could be successfully implemented in Oklahoma. Subcommittee progress reports were provided during meetings of the full Task Force on September 6, 2017 and October 18, 2017.

While each subcommittee had a specific focus, certain common themes emerged from the work of the subcommittees. These included:

- The power of predictive analytics.
- Development of microcredentials to meet workforce needs in real time.
- Increased financial support from the Legislature for the concurrent enrollment program to advance degree completion efforts.
- Dedicated focus on adult student programs, scholarships, and credit for prior learning.
- Scaling delivery of online education.
- Consolidation of administrative structures and functions.
- Reemployment of cost savings to support the mission of the institution.

After months of study and deliberations, the Task Force unanimously voted to approve all subcommittee recommendations and the full report at its meeting on January 31, 2018. At their meeting on February 1, 2018, the Oklahoma State Regents for Higher Education unanimously accepted the Task Force on the Future of Higher Education’s Report on the Future of Higher Education, which outlines the Task Force’s assessment process and recommendations to strengthen Oklahoma public higher education.

The Task Force on the Future of Higher Education’s Report on the Future of Higher Education aligns with current national trends focusing on innovation in higher education in an effort to adapt higher education to a changing business model in light of fiscal challenges, increased demand for workforce-aligned programs, and greater calls for accountability and transparency. These trends focus on innovations such as:

- Educational delivery methods,
- Academic initiatives,
- Internal processes for business or service,
- Business model needs,
- New markets or existing markets served in new ways, and
- Establishment of partnerships with corporations and other institutions.

POLICY ISSUES:

State Regents’ Policy 2.5 State Regents’ Committees outlines the authority of the Oklahoma State Regents for Higher Education to establish standing committees to “serve as focus tools of the State Regents and a constructive resource of the Chancellor.” According to Policy 2.5, committees do not take official action.

The State Regents’ Chair appoints members of committees annually, with standing committees consisting of four members: a chairman and three members. The State Regents’ Chair holds ex officio status on all standing committees.

State Regents’ Policy 2.5 outlines the responsibilities of each standing committee. Current standing State Regents’ committees include:

- Strategic Planning and Personnel and Technology Committee
- Budget and Audit Committee
- Investment Committee
- Academic Affairs and Social Justice and Students Services Committee (commonly referred to as just Academic Affairs Committee)
While special or ad-hoc committees do not require revisions to State Regents’ policy and may be established as needed by the State Regents’ Chair and dissolved when their purpose is accomplished, new standing committees are required to incorporated into official State Regents’ policy.

ANALYSIS:

As part of the Task Force recommendations, the State Regents contracted with Huron Consulting in 2019 to conduct fiscal reviews and long-term viability assessments with for all 25 state system institutions. In the OSRHE Comprehensive System Report: Financial Fiscal Review and Long-term Viability Assessment Discussion Document presented at the May 28, 2020, State Regents meeting, Huron Consulting concluded that in order to minimize the burden of future revenue declines, institutions will need to significantly cut expenditures, dip into reserves, or begin consideration of the following strategies:

- Mergers and/or closures,
- Reduction/realignment of academic programming
- Reorientation of programs towards job markets,
- Mission right-sizing
- Administrative cost reduction strategies, and
- Space utilization analyses.

Based upon discussion with the State Regents following the conclusion of the institutional fiscal reviews and long-term viability assessments conducted by Huron Consulting, it is recommended that the State Regents establish a new standing committee, the System Innovations Committee, to focus exclusively on implementing the recommendations produced by the 2018 Task Force on the Future of Higher Education; analyzing data produced by the institutional fiscal viability reviews conducted by Huron Consulting as well as other sources of institutional performance indicators; and researching and reviewing national trends in higher education and making recommendations for state system changes as appropriate.

In addition to this revision to State Regents’ Policy 2.5, it is recommended that State Regents’ Policy 2.5.2 also be revised to change the required number of State Regents on each standing committee to allow greater flexibility in committee assignments and to accommodate other obligations held by the State Regents outside their voluntary service on the board.

The chairman and members of standing committees will be appointed annually by the Chairman with recognition of both continuity and new member factors. AGENDA ITEM #10-a:

Electronic Delivery.

SUBJECT: Northeastern Oklahoma A&M College. Approval to offer the following existing programs via electronic delivery: the Associate in Arts in Psychology and Sociology, the Associate in Science in Elementary Education, the Associate in Science in Pre-Nursing, the Associate in Science in Physical Education, the Associate in Science in Sports Management, the Certificate in Accounting (Less Than One Year), and the Certificate in Accounting (Less Than Two Years).

RECOMMENDATION:

It is recommended that the State Regents approve Northeastern Oklahoma A&M College’s requests to offer the following existing programs via electronic delivery: the Associate in Arts in Psychology and Sociology, the Associate in Science in Elementary Education, the Associate in Science in Pre-Nursing, the Associate in Science in Physical Education, the Associate in Science in Sports Management, the Certificate in Accounting (Less Than One Year), and the Certificate in Accounting (Less Than Two Years).

BACKGROUND:

Northeastern Oklahoma A&M College (NEOAMC) is currently approved to offer the following degree programs via electronic delivery:

- Associate in Science in Business Administration (008);
- Associate in Applied Science in Business Administration Technology (032);
- Associate in Arts in General Studies (110);
- Certificate in Management and Marketing (Less than Two Years) (082);
- Certificate in Management and Marketing (Less than One Year) (100);
- Associate in Arts in Enterprise Development (675)
- Associate in Science in Enterprise Development (676)
- Associate in Arts in Criminal Justice (013)
- Associate in Arts in Early Childhood Education (120); and
- Associate in Arts in Social Sciences (044).

NEOAMC’s governing board approved offering the existing Associate in Arts in Psychology and Sociology (041), Associate in Science in Pre-Nursing (037), Associate in Science in Physical Education (040), the Associate in Science in Sports Management (122), the Certificate in Accounting (Less than One Year) (087), and the Certificate in Accounting (Less than Two Years) (066) online at their April 24, 2020 meeting, and the existing Associate in Science in Elementary Education (016) online at their December 7, 2018 meeting. NEOAMC requests authorization to offer these existing programs via electronic delivery, as outlined below.
POLICY ISSUES:

These actions are consistent with the Oklahoma State Regents for Higher Education’s Distance Education and Traditional Off-Campus Courses and Programs policy. This policy allows institutions with approved online delivered programs or grandfathered status to request programs through an abbreviated process. The process calls for the president to send the following information to the Chancellor: 1) letter of intent, 2) the name of the program, 3) delivery method(s), 4) information related to population served and demand, and 5) cost and financing.

ANALYSIS:

NEOAMC satisfactorily addressed the requirements in the Distance Education and Traditional Off-Campus Courses and Programs policy as summarized below.

Associate in Arts in Psychology and Sociology (041)

Demand. The Associate in Arts in Psychology and Sociology (044) program is designed to prepare students for transfer to a bachelor's degree program in psychology, sociology, social work and other related programs. In Fall 2019, NEOAMC had 45 students in the psychology and sociology major. In addition, students in other majors take psychology and sociology courses to meet the general education requirements. Currently, four psychology and sociology courses are offered in an online format. Enrollment in these courses fills quickly every fall, spring, and summer semester. Students are requesting that additional courses be offered in an online format in order to complete the degree program online.

Graduates with a psychology and sociology degree may pursue a number of occupations in various fields with promising projections for employment. For example, Oklahoma Employment Security Commission (OESC) data suggest that employment of social and human services assistants will grow 11 percent, and employment of psychiatric aides will grow 14.2 percent from 2016 to 2026. In addition, the OESC projects that employment in local government agencies, excluding casinos, casino hotels, education and hospitals, will grow 10.1 percent over the next few years.

Associate in Science in Elementary Education (016)

Demand. The Associate in Science in Elementary Education (016) program is designed to prepare students for transfer to a bachelor's degree program in elementary education. Current NEOAMC students majoring in elementary education are requesting that all courses be available in an online format. OESC data suggest that employment for elementary school teachers will grow 7 percent in northeast Oklahoma, and 7.4 percent statewide, with 1,280 average annual openings from 2016 to 2026. Elementary school teacher is listed by Oklahoma Works as one of the top 100 critical occupations in Oklahoma.

Associate in Science in Pre-Nursing (037)

Demand. The Associate in Science in Pre-Nursing (037) program is designed to prepare students for transfer to a bachelor's degree program in nursing. More than 50 percent of students in the Pre-Nursing program are also enrolled in the Associate in Applied Science in Nursing (038) degree program at NEOAMC as a double major. These students desire to become registered nurses while simultaneously preparing to pursue a four-year nursing degree. There are also students in the Pre-Nursing (037) program who are already licensed as registered nurses, who need additional coursework to apply for admission to a four-year nursing program. Students in the Associate in Science in Pre-Nursing (037) program are requesting that the program be offered online, so that they can more easily take the Associate in Applied
Science in Nursing (038) courses concurrently, finish the program, then begin practice as a registered nurse or continue working as registered nurses despite varied work schedules.

Oklahoma Works lists registered nurse (RN) as one of the 100 top critical occupations in Oklahoma. According to OESC data, employment for registered nurses is projected to grow 10.1 percent statewide and 6.9 percent in northeast Oklahoma from 2016 to 2026. The demand for RNs with a bachelor’s degree is growing. A bachelor's degree in nursing prepares nurses for career advancement in management positions and for graduate programs.

**Associate in Science in Physical Education (040)**
**Associate in Science in Sports Management (122)**

**Demand.** The Associate in Science in Physical Education (040) and Associate in Science in Sports Management (122) programs are designed to prepare students for transfer to bachelor's degree programs in physical education, recreation, wellness, sports management, and related programs. Select courses in these programs are currently offered online. Students request additional courses to be offered electronically to provide needed flexibility with their school and work schedules.

Students who complete these degree programs may go directly to work in wellness programs, recreation settings, and/or start their own businesses. According to the U.S. Bureau of Labor Statistics, employment of coaches and scouts is projected to grow 11 percent from 2018 to 2028, much faster than the average for all occupations due to increasing participation in high school and college sports. Additionally, OESC data suggest that employment in the leisure and hospitality industry will grow 14 percent and employment for coaches and scouts will grow 10.7 percent from 2016 to 2026. Considering the high employment demand and wide-ranging transfer options, there will be great student interest in online delivery of this program at NEOAMC.

**Certificate in Accounting (Less Than One Year) (087)**
**Certificate in Accounting (Less Than Two Years) (066)**

**Demand.** These certificate programs are designed to prepare students for entry-level accounting, bookkeeping, and auditing positions and are embedded in the Associate in Applied Science in Business Administration Technology (032) program, which has previously been approved for electronic delivery. Students have requested to be able to complete the programs totally online. OESC projects that there will be 1,860 bookkeeping, accounting, and auditing clerk openings in northeast Oklahoma from 2016 to 2026.

**Delivery method.** Courses required for these programs will be delivered through Canvas. Features used will include, but will not be limited to, announcements, modules, discussions, assignment upload, quizzes/exams, email, calendar of due dates, and the syllabus. Students can also access Smarthinking online tutoring through Canvas. NEOAMC faculty adopted ProctorU as the proctoring service for proctored exams from a distance. Additionally, faculty have a Zoom Pro account that may be used for synchronous conferencing.

**Funding.** The existing programs will be funded through existing allocations and the tuition and fee structure and no new funding from the State Regents will be required to deliver the existing degree programs through online delivery.

**Duplication and impact on existing programs.** A system wide letter of intent was communicated by email on May 1, 2020. None of the State System institutions notified State Regents’ staff of a protest to the proposed delivery method of the existing programs. Due to employment demand, approval will not constitute unnecessary duplication.
Based on staff analysis and institutional expertise, it is recommended the State Regents approve NEOAMC’s requests to offer the existing degree programs through online delivery, as described above.
AGENDA ITEM #10-b:

Operations.

SUBJECT: Approval of contract renewal with the Attorney General.

RECOMMENDATION:

It is recommended that the State Regents authorize the Chancellor to enter into a renewal contract (attached) for legal services with the Office of the Attorney General for Fiscal Year 2021.

BACKGROUND:

Since September 2001, the State Regents have contracted with the Office of the Attorney General for legal services. The contract has been renewed annually thereafter. Upon the departure of Assistant Attorney General (AAG) Lisa Davis to become General Counsel to Governor Brad Henry, the contract was modified (and approved by the State Regents on February 13, 2004) to substitute the half-time services of an AAG assigned by the Office of the Attorney General. From 2004 to 2010, the Assigned Attorney was AAG Gretchen Harris; from 2010 to 2013, AAG Regina Switzer; and from 2013 to 2014, AAG Julie Ezell. For Fiscal Years 2015, 2016, 2017, 2018, 2019 and 2020 the Assigned Attorney was Matt Stangl. For Fiscal Year 2021, the Assigned Attorney will again be AAG Matt Stangl. Mr. Stangl was a staff attorney in the Office of the General Counsel for the University of Oklahoma from 2007 to 2013. Due to the retirement of the current OSRHE Associate General Counsel on July 1, 2020, the agency is requesting that Mr. Stangl be assigned full-time to the OSRHE.

POLICY ISSUES:

Contracts for legal services between the Office of the Attorney General and certain named agencies, specifically including the State Regents, are authorized by 74 O.S. 2001, § 18/ as amended. This is a renewal of an existing contract.

ANALYSIS:

The contract provides considerable value to the State Regents and to the State System.

- The contract provides a strong connection with the Office of the Attorney General, current information about its thinking on a variety of legal issues, and links to its advice to other agencies on issues of common concern.

- The contract has enabled the State Regents to provide legal services support to small institutions that do not have ready access to legal services. This is consistent with the State Regents’ preventive law philosophy.
• Mr. Stangl's prior experience in the Office of the General Counsel for the University of Oklahoma is especially relevant to the State Regents' needs with respect to both the agency and the State System.

The annual cost of the contract is $131,050.08 annually, and will be billed at $10,920.84 per month. This includes the assigned AAG’s salary, benefits, and non-salary costs incurred in connection with the provision of legal services pursuant to the contract. The annual cost of the contract for FY 20 was $65,525.04, so there has been no increase in the annual cost of the half-time contract for the past five fiscal years. A copy of the proposed contract is attached. The contract provides that the assigned AAG, if requested by the State Regents, shall provide quarterly reports to the State Regents setting forth the time expended and the work performed by that AAG. The Legal Department will continue to request such quarterly reports. The contract also provides that the State Regents, acting through the Chancellor or his designee, reserve the right to determine the scope of the assigned AAG’s activities on behalf of the State Regents. The Chancellor will direct that the assigned AAG not include within the scope of the activities any matters pertaining to the University Center of Southern Oklahoma (f/k/a Ardmore Higher Education Program) or the Office of Educational Quality and Accountability. The contract also provides that it may be terminated by either party upon 60 days written notice. Approval of the contract is recommended.

AGENDA ITEM #10-c:

Non-Academic Degrees.

SUBJECT: Ratification of a request from Oklahoma State University to award posthumous degrees.

RECOMMENDATION:

It is recommended that the State Regents ratify Oklahoma State University’s request to award posthumous degrees.

STAFF ANALYSIS:

A request has been made from Oklahoma State University (OSU) to award a Bachelor of Science in Agricultural Sciences and Natural Resources in Agricultural Leadership degree posthumously to Mr. Ryan Matthew Prindle, and a Bachelor of Arts in Liberal Studies degree posthumously to Ms. Charlene C. Lovelace.

State Regents’ Granting of Degrees policy states that posthumous degrees can be awarded “recognizing the meritorious but incomplete earned work of a deceased student, generally a student who was deceased in the last semester of work.”

At the time of his death, Mr. Prindle was in good academic standing, had completed 108 hours towards his degree, and was known for his investment in the lives of others and for his passionate commitment to the agricultural industry.

At the time of her death during finals week in 2019, Ms. Lovelace was enrolled in 12 credit hours, was in good academic standing with 90 hours earned towards her degree, and was anticipating entering her final year of study at the age of 74 while also holding down a full-time job.

POLICY ISSUES:

The requests for posthumous degrees are consistent with State Regents’ policy which states such degrees are generally given to a student deceased in their last semester of study.

The proposed diplomas for the posthumous degrees are attached for State Regents’ ratification.
