# WHAT'S YOUR PLAN FOR COLLEGE?

Right now, college probably seems a million miles away. But NOW is the best time to start making plans for what happens after high school. You don't have to make any big decisions yet, but the sooner you start thinking about what you're interested in doing for a living, the easier your choices will be later. Where are you headed after graduation? What do you have to do to get there? Don't know where to start? You're not alone! Read this booklet to get some good ideas about how to begin your journey. Then talk to your family and school counselor about your plan for college.

## What's in it for you?

- You'll have the time to explore your interests, discover things you didn't know and set new goals.
- College is fun! You'll meet interesting people and make new friends.
- You'll learn how to learn — how to think critically, solve problems and develop new skills.
- A degree can take you out of a minimum-wage job and into a good-paying career you enjoy. Studies prove it: continue your education after high school, and you're likely to make more money and enjoy a better life.

[OKcollegestart.org](http://OKcollegestart.org) is the official source for planning a college education in Oklahoma and offers interactive tools to help you prepare and pay for college. The website provides information about admission requirements, financial aid, college costs and more. You can search by keywords and receive personalized results to compare colleges.

## Let's talk money

### WITHOUT A DEGREE

Let's say you decide to skip college and take a job as a data entry keyer. You'll get paid about \$14 an hour, which is approximately \$1,866 a month or \$22,392 per year in take-home pay.

#### GROSS PAY

**\$2,427** month

*less taxes, Social Security and Medicare*

#### TAKE-HOME PAY

**\$1,866** month

### WITH A DEGREE

Now let's say you take the time to explore careers, go that extra mile and graduate from college with a degree in computer programming. As a computer programmer, you'll make about \$36 an hour. That's \$4,336 a month or \$52,032 per year in take-home pay.

#### GROSS PAY

**\$6,240** month

*less taxes, Social Security and Medicare*

#### TAKE-HOME PAY

**\$4,336** month

# The more you learn, the more you can earn

In fact, according to the U.S. Census Bureau, someone with a bachelor's degree earns about 50 percent more than someone with just a high school diploma. That makes a huge impact on your monthly paycheck and can help you afford the lifestyle you want.

## GLOSSARY

If any of the terms used in this publication are unfamiliar to you, check out the glossary in the *Prepare for College* section in the *College Planning* tab at [OKcollegestart.org](http://OKcollegestart.org).

## Courses to take

You must take certain courses in high school to graduate and for admission to an Oklahoma public college or university. These requirements will prepare you for college, and you'll learn valuable skills in case you decide to get a job right out of high school.

SUBJECT	UNITS
English	4 units
Mathematics	3 units
Laboratory Science	3 units
History and Citizenship Skills	3 units
Other	2 units
Total	15 units

For more information about the specific courses you must take to earn a "standard" high school diploma, visit [OKcollegestart.org](http://OKcollegestart.org). Remember that requirements may change, and they may be different for private colleges and universities, so always check with your counselor for details.

## Think ahead

A great way to speed up your college career is to consider earning college credit even before you graduate from high school — as early as your junior year. Taking advantage of opportunities such as Advanced Placement (AP) courses and concurrent enrollment can save you time, tuition, and room and board, and will also prepare you for the demands of college. To learn more, visit [OKcollegestart.org](http://OKcollegestart.org) and ask your high school counselor what options are available at your school.

For more information about admission requirements for first-time entering students at Oklahoma public colleges and universities, visit [OKcollegestart.org](http://OKcollegestart.org), talk to your school counselor or check with the college(s) you want to attend.

## GRADES TO MAKE

If you want to attend an Oklahoma college or university, you must meet certain requirements. When you apply for admission, public colleges and universities will look at:

- Your score on a national standardized test (ACT or SAT).
- Your overall grade point average (GPA) and ranking within your high school class OR
- Your GPA in the 15 core courses required for college entry.
