COUNSELORS’ RESOURCE BOOK
Oklahoma’s Colleges and Universities

- Getting Ready for College
- Choosing the Right Courses
- Paying for College
- Profiles of Colleges & Universities
This guide is a project of Oklahoma higher education, produced in coordination with the Communicators Council. Published by the Oklahoma State Regents for Higher Education in September 2017.

Cover photos courtesy of Cameron University and Oklahoma State University - Oklahoma City.
The Oklahoma State Regents for Higher Education, in compliance with Titles VI and VII of the Civil Rights Act of 1964, Executive Order 11246 as amended, Title IX of the Education Amendments of 1972, Americans with Disabilities Act of 1990 and other federal laws and regulations, do not discriminate on the basis of race, color, national origin, sex, age, religion, handicap or status as a veteran in any of its policies, practices or procedures. This includes, but is not limited to, admissions, employment, financial aid and educational services. This publication is issued by the Oklahoma State Regents for Higher Education, as authorized by 70 O.S. 2001, Section 3206. Copies have not been printed but are available through the agency website at www.okhighered.org. Two printout copies have been deposited with the Publications Clearinghouse of the Oklahoma Department of Libraries.

College is an investment in your students’ future, and they SHOULD be planning for it now. The Oklahoma State Regents for Higher Education (OSRHE) offers many FREE resources to help students and their families consider college options and plan for their future education needs. Many of the programs and resources are listed in this section. To get more information or a copy of the brochures, students and parents can visit www.OKcollegestart.org and www.UCanGo2.org call the Student Information Hotline at 800.858.1840 (405.225.9239 in Oklahoma City) or email a request to studentinfo@osrhe.edu.

These Will Help

Advanced Placement Courses (AP)
Allow students to take college-level course work in high school and receive credit at Oklahoma colleges and universities. For more information, visit www.okhighered.org/advanced-placement.

Concurrent Enrollment
Allows eligible junior and senior high school students to take credit-earning college courses. For more information, visit www.okhighered.org/concurrent-enrollment.

Cooperative Agreements
Technology centers across the state have partnered with higher education institutions and branch campuses in cooperative agreement programs. High school students and adults may earn college credit through assessments and contractual arrangements toward Associate in Applied Science degrees offered by a state system college or university. An inventory of current assessments accepted for college credit is available on the website. For more information, visit www.okhighered.org/agreements.

Course Transfer
The State Regents provide a course transfer matrix outlining more than 8,000 courses that will transfer among Oklahoma’s public and private colleges and universities. For more information, see the Transferring section, call the Student Transfer Hotline at 800.858.1840 or visit www.okcoursetransfer.org.

Gaining Early Awareness and Readiness for Undergraduate Programs (GEAR UP)
Administered by the State Regents, this federally funded program is designed to further prepare middle and high school students for college through academic preparation programs and scholarships for students, professional development activities for educators, and college access information for students and parents. For more information, call 800.858.1840 or 405.225.9191 in Oklahoma City or visit www.okgearup.org.

Lead Oklahoma
Lead Oklahoma is a leadership class that comes established with research-based curricula for students in eighth- through ninth-grade. The ultimate goal of the program is to increase overall student success rates in schools while exposing them to various careers, especially careers in teacher education. Lead Oklahoma is a semester-to-yearlong course at no cost to each district and provides students with leadership opportunities that include teaching mini lessons to elementary children (Little Buddies) and a class conducting service learning projects. Lead Oklahoma also provides lessons that help increase the knowledge and skills to help students make short- and long-term decisions such as delaying gratification and increasing healthy habits through setting attainable goals. Understanding the complex consequences of choices, exploration of personality development, accepting new challenges and exploring career options, with a special emphasis on becoming a teacher, are all encapsulated in the course. Lead Oklahoma is offered by the Oklahoma Teacher Connection. For more information, call 800.858.1840 or 405.225.9197 or visit www.okhighered.org/otc.

Oklahoma College Savings Plan
To help families save for college, Oklahoma has created a savings program that offers tax advantages, a low start-up investment of $100, and contributions as small as $15 per investment option per pay period through payroll deduction. Funds can be withdrawn as needed and used for college expenses at nearly all colleges and universities in the United States. For more information, call 877.654.7284 or visit www.ok4saving.org.

Oklahoma's Colleges and Universities

The financial literacy initiative of the State Regents and the Oklahoma College Assistance Program, OKMM helps K-12 schools, higher education campuses, business and community partners develop or expand financial education services and helps students, adults and families successfully manage personal finances, understand consumer credit and navigate the financial aid process. For more information, call 800.970. OKMM or 405.234.4253 or visit www.OklahomaMoneyMatters.org.

Oklahoma's Promise (Oklahoma Higher Learning Access Program)
Awards scholarships to students whose families meet certain income requirements and who have demonstrated a commitment to academic preparation in high school. Students must sign up for the program in the eighth-, ninth- or 10th-grade (home-schooled students must be age 13, 14 or 15). There are additional academic, conduct and financial requirements to keep the scholarship during college. For more information, call 800.858.1840 or 405.225.9152 in Oklahoma City or visit www.okpromise.org.

Oklahoma Student Preparation
College readiness is more than academic preparation. The aspirations of students and their families to achieve a college degree require guidance and support beginning at an early age, not just the senior year of high school. The Student Preparation office at the State Regents helps PK-12 educators and parents effectively prepare students for college readiness. Through online resources, regional workshops, on-site training and retreats, the student preparation team provides educators, parents and students with the resources necessary to ensure all Oklahoma students and their families are college-ready. For more information, call 405.225.9462 in Oklahoma City or visit www.okhighered.org/student-prep.

Student Information Hotline
Provides information about financial aid, admission requirements, placement scores and more. Call 800.858.1840 or 405.225.9239 or email studentinfo@osrhe.edu.

Teach Oklahoma
Teach Oklahoma is an enriching elective class designed to "grow your own" teachers with targeted curriculum for high school juniors and seniors. The curriculum is provided at no cost to districts and is targeted for high school students who are interested in discovering more about the various aspects of education, especially careers in teaching. This intensive, research-backed teacher recruitment program includes curriculum focused on exploring teaching in various settings and critical shortage areas. Embedded in the curriculum are some of the different professional aspects of teaching (i.e. child development, education theory, lesson planning, classroom management, learning styles and pedagogical methods). The Teach Oklahoma program also includes an interactive and powerful teaching internship, résumé production and knowledge of the history of American education. Students have an opportunity to learn more about the "how tos" of college attendance and may participate in field trips to local universities, specifically colleges of education. Course participants evolve into strong advocates for teachers and proponents for education throughout Oklahoma. Teach Oklahoma is offered by the Oklahoma Teacher Connection. For more information, call 800.858.1840 or 405.225.9197 or visit www.okhighered.org/otc.

Check It Out

Counselors’ Resource Book: Oklahoma’s Colleges and Universities
Provides a profile about each college and university in Oklahoma and includes information about preparing for college, college costs and financial aid. These books are available online only and to high school counselors in early fall.

GEAR UP Guides for Parents of Eighth-Graders, Ninth- through 10th-Graders and 11th- through 12th-Graders
Includes information about the vital role parents play in preparing their children for college, the economic benefits of obtaining a college degree, the high school courses required for college entry, admission standards, college costs and financial aid. In addition, these guides contain a list of activities parents can do with their children to help them prepare for college.

OKcollegestart.org
Provides a “one-stop shop” for students, parents, adult learners and educators. Students can create a portfolio; build a resume; perform career assessments; test prep for the ACT, SAT and GRE; and practice a college application. In addition, students can search by keywords and find information about admission requirements and financial aid, request and track transcripts, explore programs and majors, and receive personalized results to compare colleges. See the OKcollegestart.org section for additional information and visit the site at www.OKcollegestart.org.

Oklahoma’s Promise Flyer
Explains the requirements and benefits of Oklahoma’s Promise, which awards scholarships to students with financial need who have demonstrated a commitment to academic success in high school. Posters and application forms are also available. Materials are provided to counselors in late summer for distribution to eighth-, ninth- and 10th-grade students, and are also available in Spanish.

Preparing for College Brochures (Eighth-10th and Juniors/Seniors)
Outline the required courses students must take in high school to be admitted to an Oklahoma state college or university, admission standards, financial aid information and more. Brochures are provided to counselors in late summer for distribution to eighth- through 12th-grade students.

ReadySetRepay.org
Keeps students on track for student loan success by encouraging them to borrow smart from the start. Topics include loan options, loan repayment and loan default. Visit the site at www.ReadySetRepay.org.
StartWithFAFSA.org
Provides students and parents with information about specific FAFSA topics and allows them to ask questions, watch FAFSA video tutorials in English or Spanish and download publications. New topics and answers to important questions are uploaded weekly. Visit the site at www.StartWithFAFSA.org.

UCanGo2.org High School Counselor Kit
Gives high school counselors and teachers tools to help their students plan, prepare and pay for college, including information about the Free Application for Federal Student Aid (FAFSA). The kit includes two components; the first contains UCanGo2’s college planning materials comprised of an instructor’s guide, student workbook, ninth-through-12th grade checklists and various other instructional materials. Topics covered include the value of higher education, exploring careers and college majors, preparing and planning for life after high school, researching institutions and programs, and finding and getting financial aid. The FAFSA component contains information about the importance for students to complete and submit the FAFSA application and the process that goes along with it. Guidance on available materials and resources, including the FAFSA blog page www.StartWithFAFSA.org, are covered.

Ordering Publications
Publications are available for download at the State Regents’ website at www.okhighered.org.
For more information or to order materials, call the State Regents’ toll-free hotline at 800.858.1840 (405.225.9239 in Oklahoma City), email your request to studentinfo@osrhe.edu or write:
Oklahoma State Regents for Higher Education

GETTING INTO COLLEGE

What It Takes............................................................................. 9
Choosing the Right Courses..................................................... 11
Transferring .............................................................................. 11
Accreditation ............................................................................. 11
International Students .............................................................. 11
What It Takes:
Public College and University Admission Requirements

Courses to Take
Listed in the table below are the courses you must take if you want to go to an Oklahoma state college or university. These courses will also help you prepare for on-the-job success if you decide to jump straight into the job market after high school.

Note: Requirements may change, so check with your counselor for details.

Oklahoma’s Promise (Oklahoma’s Higher Learning Access Program) course requirements are consistent with college admission requirements, except Oklahoma’s Promise students must take additional courses. Please see the information about Oklahoma’s Promise in the Money for College section for more details.

Suggestion for Success: Colleges and universities also recommend, but do not require, that you take an additional unit in laboratory science, an additional unit in math, plus two units in speech or fine arts (music, art, drama).

<table>
<thead>
<tr>
<th>Courses</th>
<th>Units</th>
<th>Examples</th>
</tr>
</thead>
<tbody>
<tr>
<td>English</td>
<td>4</td>
<td>grammar, composition and literature</td>
</tr>
<tr>
<td>Math</td>
<td>3</td>
<td>Algebra I, Algebra II, geometry, math analysis, trigonometry, pre-calculus, statistics and probability (must have completed geometry and Algebra II), calculus, Advanced Placement statistics</td>
</tr>
<tr>
<td>Lab Science</td>
<td>3</td>
<td>biology, chemistry, physics, or any lab science certified by the school district; general science courses don’t qualify</td>
</tr>
<tr>
<td>History and Citizenship Skills</td>
<td>3</td>
<td>must include one unit of American history and two units from the subjects of history, economics, geography, government and/or non-Western culture</td>
</tr>
<tr>
<td>Other</td>
<td>2</td>
<td>from any of the course units above or computer science or foreign language units</td>
</tr>
<tr>
<td>TOTAL</td>
<td>15</td>
<td></td>
</tr>
</tbody>
</table>

First-time entering students must meet assessment requirements before enrolling in college-level courses. See the State Regents’ Assessment and Remediation Policy for more information.
Grades to Make
When you apply for admission to an Oklahoma state college or university, the institution will look at your score on a national test (ACT or SAT); your high school GPA and its ranking within your high school class; and/or your GPA in the 15 core courses required for college entry.

Note: Requirements may change, so see your counselor for up-to-date information. Also, concurrent enrollment and Cooperative Alliance enrollment by high school students may have different standards. If you want to go to a state university but do not meet the course and grade requirements, see your counselor.

Oklahoma State College and University Admission Standards for Fall 2017

</tbody>
</table>

1 This score is valid for SATs administered on or after March 5, 2016. This score is based on the College Board’s Concordance Table that was published May 9, 2016. It is subject to change.

2 This score is valid for SATs administered before March 5, 2016.

3Cognitive: Noted academic admission standards; quality, quantity and level of coursework throughout the entire high school program; completion of a progressively challenging math sequence, demonstrated by performance; and class rank taken in context with academic rigor and class size of high school attended.

4Non-Cognitive: Students must demonstrate strengths in non-cognitive factors such as positive self-concept, realistic self-appraisal, long-term goals, leadership experience, community, and knowledge in an acquired field.

For more information, call the Student Information Hotline at 800.858.1840 (405.225.9239 in Oklahoma City), email studentinfo@osrhe.edu or visit www.OKcollegestart.org.

Independent College and University Admission Requirements
Course and grade requirements for independent institutions (not tax supported, nonprofit) vary, so check the Independent Institutions section of this book or see your counselor.
Choosing the Right Courses

Public Colleges and Universities
After you have been accepted to an Oklahoma state college or university, your academic adviser will help you get a good start by ensuring that you enroll in the right courses for your skill or knowledge level. Your ACT subject test scores in science, mathematics, reading and English will be reviewed.

Generally, if you scored a 19 or higher on a subject test, you will be placed in a college-level course for that subject area. If you scored below 19 on a subject test, your past academic record will be reviewed further or you may undergo additional testing in that area. If you are not entirely ready for college-level work, you will be provided support to increase your requisite knowledge in that specific content area. It is best to prepare for college while you are in high school, so when you get to college, you can focus your time and money on getting your college degree.

For more information, call the Student Information Hotline at 800.858.1840 (405.225.9239 in Oklahoma City), email studentinfo@osrhe.edu or visit www.OKcollegestart.org.

Independent Colleges and Universities
Course placement policies may differ for independent colleges and universities. Check with the institution you wish to attend for additional information.

Transferring

Public Colleges and Universities
During your college career, you may decide to transfer from one Oklahoma college or university to another. Information gathered by Oklahoma public colleges and universities indicates that, based on junior- and senior-level GPAs, transfer students perform comparable to students who stay at the same college or university. If you decide to transfer to a four-year university with an Associate in Arts or Associate in Science degree (two-year degrees), State Regents’ policy ensures that these degrees will satisfy all general education requirements at the four-year university. If you transfer to another college before you complete an associate degree, your academic adviser can view your records and determine whether or not you qualify to participate in the “reverse transfer” process through which credit hours earned by students after transfer to another institution may be applied to certificate or degree requirements at a previously attended institution or institutions. If not, your general education courses can still be reviewed on a course-by-course basis for matches to those at the college to which you transferred.

To help you during the transfer process, course transfer information is posted at www.okcoursetransfer.org. All state colleges and universities (and most private institutions) participate in the Course Equivalency Project. This project provides course equivalency tables that list courses that will transfer among Oklahoma’s public colleges and universities. Courses not listed as part of this project can still be reviewed on a case-by-case basis by the institution to which you are transferring. In addition, each degree-granting college or university lists the requirements for each of its degree programs and publicizes those requirements for use by all other colleges and universities so that you can plan ahead. For more information, visit www.okcoursetransfer.org, see your counselor, call the Student Transfer Hotline at 800.583.5883 (405.225.9163 in Oklahoma City) or check with the institution to which you plan to eventually transfer.

Independent Colleges and Universities
Transfer guidelines vary from institution to institution. Check with the institution you wish to attend for additional information about course work transfer and transfer admission requirements. For more information, call the Student Information Hotline at 800.858.1840 (405.225.9239 in Oklahoma City), email studentinfo@osrhe.edu or visit www.OKcollegestart.org.

Accreditation
The Higher Learning Commission of the North Central Association of Colleges and Schools accredits all Oklahoma public, and some independent, colleges and universities. An institution’s accreditation may affect your ability to transfer courses, to utilize federal financial aid and your employment choices in the future. Check with the institution you plan to attend and ask about accreditation.

For more information, call the Student Information Hotline at 800.858.1840 (405.225.9239 in Oklahoma City), email studentinfo@osrhe.edu or visit www.OKcollegestart.org.

International Students
Oklahoma extends a special invitation to international students to pursue higher education in our state. For more information about admissions requirements and English language requirements, visit www.okhighered.org/international-students.
PAYING FOR COLLEGE

What It Costs ................................................................. 15
Money for College .......................................................... 16
What It Costs
College expenses vary depending on the type of college or university, the number of courses a student takes, a student’s major and his or her personal lifestyle, among other factors.

A significant expense for most college students is the cost of classes. Students pay tuition and mandatory fees to cover costs such as professors’ salaries, classroom and laboratory equipment, classroom maintenance and utility costs.

Tuition and mandatory fees at Oklahoma state colleges and universities are considerably lower than average tuition at similar institutions in other states. Mandatory fees include, but are not limited to, library fees, technology services fees, student activity fees and assessment fees.

In addition, some academic courses also charge academic service fees for the use of equipment and facilities, private instruction and testing/clinical services.

The chart below provides an estimate of annual college costs for an undergraduate resident student carrying 15 hours per semester at a state college or university during the 2017-18 academic year. Though subject to change, the costs can serve as a basis for estimating college expenses.

Independent colleges and universities (not tax supported, nonprofit) are generally more expensive than state colleges and universities, so review the independent college and university pages in this book or check with your counselor for an estimate of costs.

### 2017-18 Estimated Student Costs for Resident Students at Oklahoma Public Colleges and Universities

*Room and board costs are based on a student living in a traditional dormitory with a roommate and a board (meal) plan. The costs represent the preferred room and board plan available on each campus. Many institutions offer a wide variety of room and board plans that may be more or less than the amount reported above.

A complete list of Oklahoma public college and university tuition and mandatory fees is available on [www.OKcollegestart.org](http://www.OKcollegestart.org) under Financial Aid Planning, Financial Aid 101, The Basics, Oklahoma Tuition Breakdown.
Money for College
College is an investment in your future that you should be planning for now. You are fortunate to live in Oklahoma, where state colleges and universities are among the most affordable in the nation. Plus, Oklahoma has many resources available to help you and your family plan for and manage the cost of earning a college degree.

Did you know that students attending Oklahoma public and independent (private) colleges and universities receive approximately $1.5 billion in financial aid per year? There is a good chance you will qualify for financial aid!

Types of Financial Aid
Fortunately, there are many kinds of student financial aid to help you and your family manage the cost of college. While your high school guidance counselor can give you specific financial aid information, the following are some general sources of financial aid.

Scholarships – awards given for a variety of reasons, such as good grades, special talents or career plans

Grants – aid that’s generally based on financial need and that doesn’t have to be repaid

Work-study (student employment) – money you earn for college by working part-time at the college or university you are attending or at an approved off-campus worksite in the community

Loans – borrowed money that you must repay over time, with interest

Getting Financial Aid
One of your first steps should be determining your financial need. Financial need is the difference between the cost of attending a particular school and the calculated family contribution, minus any other financial aid you will receive. One way to get started on a financial plan for college is to take advantage of the Estimate Your Aid tool at https://studentaid.ed.gov/sa/fafsa/estimate. The estimator can help your family plan to meet college costs at specific institutions by estimating your family’s contribution, your eligibility for federal need-based financial aid and the amount of other financial aid you will need.

Here are five more helpful tips for locating sources of financial aid:

1. To apply for federal financial aid (grants, work-study and loans) and the Oklahoma Tuition Aid Grant (OTAG) program, you should complete the Free Application for Federal Student Aid (FAFSA) as soon as possible after Oct. 1 during your senior year in high school and each year you need aid in college. Call the financial aid office of the college(s) you plan to attend to learn about any additional forms they may require. The FAFSA is available online at www.fafsa.gov, and families are encouraged to use this method of application (step-by-step instructions are provided on the site). If you don’t have the ability to complete the FAFSA online, you can download and print a paper copy that must be completed and mailed in to the processing center. The paper process takes more time and does not offer instant edits to help reduce the possibility of errors like the online process does. Remember, the first F in FAFSA stands for “free.” Be wary of any organization that requires you to pay to fill out the FAFSA!

2. Check for scholarships sponsored by local organizations, including your church, parent’s employer and community groups such as the American Legion, YMCA, 4-H Club, Elks, Masons, Kiwanis, Jaycees, Chamber of Commerce and the Girl or Boy Scouts. Your high school counselor can help you explore scholarship opportunities in your area.

3. Contact the admissions or financial aid office at the colleges you are interested in attending. Many colleges and universities offer scholarships to recognize academic achievement or special talents, such as athletics or performing arts. Much of this information is available on colleges’ websites.

5. It’s best to use savings or free financial aid to pay for college, but that’s not always possible or enough to cover college expenses. You might need to borrow money to pay for your education. But don’t worry – there are many resources to help. The federal government offers inexpensive student loans with flexible repayment terms. You may also be offered private loans (sometimes called alternative loans). If you have to borrow to pay for college, do some research. Federal loans almost always have preferable interest rates and repayment options. However, some private loans are becoming more competitive, so do your homework. You’ll want the best program available. For more information, contact the Oklahoma College Assistance Program, an operating division of the Oklahoma State Regents for Higher Education that provides college access, financial literacy and student loan management programs and services for students and parents, at 800.442.8642 or visit www.ocap.org.

Tips for Scholarship Success

Don’t wait. Fill out the Free Application for Federal Student Aid (FAFSA) every year you need financial aid. Many students don’t realize they may qualify for federal aid such as grants, scholarships, work-study or low-cost student loans. Learn more at www.fafsa.gov.

Get organized. Prepare early for scholarships. Start a My Future file for important college-planning documents like report cards, ACT/SAT scores, letters of recommendation and documentation of volunteer work and extracurricular activities. The information will come in handy when completing scholarship forms and college applications.

Do your research. Set up an appointment with your school counselor to talk about your scholarship options. Many colleges post available scholarships on their websites. Check with the school you plan to attend to learn about scholarships they may offer. Select the “Find Scholarships” tab at
www.UCanGo2.org to find a list of scholarships categorized by deadline date and category. You can also check out other websites that offer free resources and scholarship searches, including:

www.OKcollegestart.org  
www.college-scholarships.com  
www.scholarships.com  
www.occf.org  
www.scholarshipmonkey.com  
www.scholarships360.org  
www.studentsscholarshipsearch.com  
www.goodcall.com/scholarships  
www.scholarships4school.com

Do the “write” thing. Many scholarships require an essay, but don’t let that discourage you. Preparing scholarship essays can often be a fun experience because it gives you the opportunity to write about interesting topics like your future goals or a favorite service project. Be sure to have an adult review your essay for grammatical or spelling errors before you submit your scholarship application. Statistically speaking, scholarships that require you to write an essay have fewer applicants, which means you have a greater chance of receiving the scholarship.

Don’t miss the boat. Nothing is worse than completing a scholarship application or writing a great essay only to realize you’ve missed the deadline. Apply for as many scholarships as you can and keep track of the requirements for each one so you don’t miss out on free money by forgetting to include your transcript or submitting your application after the deadline.

Take it to the next level. Clean up your Facebook page; “like” social media sites that offer scholarship information, such as www.facebook.com/UCanGo2, which provides information about at least three scholarships per week; set up a Google alert to find scholarships; and send a written thank-you note if you’re awarded.

Focus on the FAFSA
To apply for federal grants, scholarships, work-study programs and low-cost federal student loans, you must complete the Free Application for Federal Student Aid (FAFSA). These handy tips will help simplify FAFSA completion.

Good to Know
Complete the FAFSA as soon as possible after Oct. 1 of your senior year of high school and every year you need aid to meet school and state deadlines.  
Apply for your FSA ID, which requires a user name and password, before you complete the FAFSA. The FSA ID is used as your electronic signature on the FAFSA. Signing online can save you a lot of time during the application process. You can request an FSA ID at www/fsaid.gov.  
Visit www.fafsa.gov to complete the application online and receive step-by-step instructions; you’ll need your FSA ID. You can also download and print a paper copy by going to www.fafsa.gov; however, the online application is highly recommended.  
Because www.fafsa.gov is a secure site, your information is encrypted for privacy.  
Internal Revenue Service (IRS) data may be transferred directly to your online FAFSA application.  
Never pay to complete the FAFSA – the first letter in FAFSA stands for FREE!  
Visit www.StartWithFAFSA.org for more information about FAFSA completion, including video tutorials in both English and Spanish.

Completing the Form
When submitting your FAFSA online, hit the Save button often. Always use the Next and Previous buttons on the site. Never use the Back button on your browser or you may lose your information.

If you have a question while completing the FAFSA online, you can view the Help and Hints box on the right-hand side of each screen to get answers.

All school codes are listed on the official FAFSA website, www.fafsa.gov.

Be sure to enter your full name as it’s shown on your Social Security card. The FAFSA processing center does a match with the Social Security Administration and if your name and number don’t match, your FAFSA could be rejected requiring a correction and adding a delay to receiving your FAFSA results.

Be sure to check your state deadline on the www.fafsa.gov home page. Many states have early deadline dates, and your FAFSA application must be submitted by that date for you to be considered for state grant funds.

Student and Family Information
If you’re a dependent student, include information about your parents’ income when completing the FAFSA. If you have a special situation, you should contact the financial aid office at the school you plan to attend.

Visit www.fafsa.gov to learn more about the IRS Data Retrieval Tool. You may be able to transfer your tax information directly into your FAFSA application while completing it online.

The FAFSA uses a larger percentage of student income and assets when determining your Estimated Family Contribution (EFC), so it’s best to keep all savings in your parents’ names.

If your parents are divorced, report the income for the parent you lived with the most during the last 12 months. If you lived with each parent for the same amount of time during the past year, you should include income information for the parent who provided you the most financial support during that period. If this parent is remarried as of today, answer questions about that parent and your stepparent. If you answer “yes” to any dependency status question, you’ll be considered an independent student. If all questions are answered “no,” you’ll be considered dependent. Check out the FAFSA Dependency Questionnaire on the Resources tab at www.StartWithFAFSA.org for more information.

Males must be registered with Selective Service to receive federal financial aid. Even if you’re not 18 yet, you can still register on your FAFSA.

Unaccompanied and homeless youth can get help with FAFSA completion by working with their designated homeless liaison. If you need to assist a student in finding their designated liaison, the
list can be found at www.StartWithFAFSA.org or on the Oklahoma State Department of Education’s website, www.sde.ok.gov under Services, Federal Programs, Title X, Part C – McKinney-Vento Homeless Education Assistance Program.

Even if you think you won’t qualify for aid, fill out the FAFSA anyway! The FAFSA is uniquely designed to determine your eligibility for financial aid. Everyone’s situation is different, and nearly everyone qualifies for some type of financial aid.

After you complete and submit the FAFSA to the U.S. Department of Education, you’ll get a Student Aid Report (SAR). Review it to ensure all of your information is correct. The information from the SAR is sent to your school’s financial aid office. Contact your school to see if you’re eligible for federal or state student aid, including grants, scholarships, work-study and student loans.

Have more questions? Contact the financial aid office at the school you plan to attend.

Note: Dependent students must report their parents’ income and assets, as well as their own, on the FAFSA. Independent students report only their own income and assets (and those of a spouse, if married). See the FAFSA Dependency Questionnaire in the Resources section at www.StartWithFAFSA.org.

Financial Aid Programs
There are numerous state and federal programs to help you pay for college. Many of them are listed on the following pages. For more information, visit www.OKcollegestart.org or call the Student Information Hotline at 800.858.1840 or 405.225.9239 in Oklahoma City.

Oklahoma Grants
Oklahoma Tuition Aid Grant Program (OTAG)
OTAG is a need-based grant program for Oklahoma residents who attend approved colleges, universities and career technology centers in Oklahoma. Awards are approved for full-time or part-time undergraduate students.

Application
Application is made through the Free Application for Federal Student Aid (FAFSA), available online at www.fafsa.gov, through high school guidance counselors or the financial aid office at the college you are planning to attend. For best consideration, you should complete and submit the FAFSA to the federal student aid application system as soon as possible after Oct. 1 of your senior year and each year you need aid in college. It is important to apply early. Typically, the OTAG program receives more eligible applications than can be awarded with available funds, and how early a student applies can be the deciding factor in whether that student is eligible for an OTAG award.

Eligibility
The student must be an Oklahoma resident according to the State Regents’ Policy on In-State/Out-of-State Status of Enrolled Students in the Oklahoma State System of Higher Education. Financial need is measured by the Expected Family Contribution (EFC), which is determined based on the information the student provides on their FAFSA. The maximum EFC eligible to receive OTAG may vary from year to year based on volume of eligible applications received and available state funding. The EFC appears on the Student Aid Report sent to students by the U.S. Department of Education once their FAFSA has been processed. An award will not be denied for academic reasons as long as the college’s minimum requirements for admission are fulfilled and satisfactory academic progress is made according to the school’s policy for student financial aid recipients.

Award Amount
Currently, the maximum annual award is the lesser of 75 percent of enrollment costs or $1,000 for students attending public colleges, universities or career technology centers and $1,300 for students attending eligible private colleges and universities. Typically, one-half of the award is disbursed in the fall semester, and one-half is disbursed in the spring semester. Funds are released to eligible students by campus officials after eligibility has been confirmed.

Oklahoma Tuition Equalization Grant (OTEG)
OTEG is a need-based grant program for Oklahoma residents enrolled as full-time undergraduates at Oklahoma not-for profit, private/independent institutions of higher education.

Eligibility
To be eligible for OTEG award consideration, a student must:

• File a Free Application for Federal Student Aid (FAFSA).
• Be enrolled full time in the fall and/or spring semesters.
• Have a family income of $50,000 or less.
• Have unmet need of at least $1,000/semester.
• Be an Oklahoma resident according to the State Regents’ Policy about Residence Status of Enrolled Students in the Oklahoma State System of Higher Education.
• Meet the institution’s satisfactory academic progress requirements.
• Not have already earned a bachelor’s degree.
• Not have already received OTEG awards during a period of five consecutive years.

Award Amount
Participating colleges and universities will each select the students to receive the award at their institution.

• Grant amounts are $2,000 per academic year or $1,000 per academic semester.
• Institutions will notify students of their awards.
Oklahoma Scholarships and Tuition Waivers

Oklahoma’s Promise
(Oklahoma Higher Learning Access Program)
The Oklahoma’s Promise program was created by the Oklahoma Legislature to encourage more students to aspire for college, prepare themselves academically in high school and ultimately earn college degrees.

How It Works
- Student must be an Oklahoma resident and enroll in the program in eighth-, ninth- or 10th-grade (home-schooled students age 13, 14 or 15). The federal adjusted income (AGI) of the student’s parents may not exceed $55,000 at the time of enrollment.
- Student starts early so he/she can get ready for college by taking high school courses that will help him/her do well.
- Student must take certain courses and pass those courses with at least a 2.50 cumulative GPA (see below for a full description of required curriculum).
- Student must also achieve at least a 2.50 cumulative GPA for all courses in grades nine-12.
- Student must go to class regularly and do his/her homework.
- Student also agrees to stay out of serious trouble and away from drugs and alcohol.
- Student must be an Oklahoma resident at the time of high school graduation and must file a FAFSA to confirm that the federal adjusted gross income (AGI) of the student’s parents may not exceed $100,000 prior to receiving any program benefit. The family income will be checked each year the student is enrolled in college. For any year that the family income exceeds $100,000, the student will not be eligible to receive the Oklahoma’s Promise benefit. Student must be a U.S. citizen or lawfully present in the United States to receive the scholarship in college.
- Student must meet additional financial, academic and conduct requirements to keep the scholarship after enrolling in college.

What Are the Benefits?
Once a student has completed the program’s requirements and graduated from an Oklahoma high school, Oklahoma’s Promise will help pay the student’s tuition at a public community college or university. It will also cover a portion of tuition at an accredited Oklahoma private college or university or for programs that meet the requirements for federal student financial aid at public technology centers. The scholarship is good for up to five years or until the student completes a bachelor’s degree, whichever comes first. The final amount of the scholarship will vary depending on where the student attends college, the tuition rates in effect at that time and whether he or she attends full time or less.

Legislation passed during the 2017 legislative session requires the State Regents to set a maximum limit on the number of courses or credit hours for which the Oklahoma’s Promise award will pay. The State Regents are expected to set this limit through the Administrative Procedures process during the 2017-18 academic year.

How Parents Can Help
Parents should encourage the student to do well in his or her courses and to stay out of trouble. When the student signs up for the program, the parents also sign an agreement and promise to help their child successfully reach the goals of the program.

Required High School Curriculum for Oklahoma’s Promise Eligibility
- 4 English (grammar, composition, literature; courses should include an integrated writing component)
- 3 Lab Science (biology, chemistry, physics or any lab science certified by the school district; general science with or without a lab may not be used to meet this requirement)
- 3 Mathematics (from Algebra I, Algebra II, geometry, trigonometry, math analysis, pre-calculus, statistics and probability [must have completed geometry and Algebra II], calculus, Advanced Placement [AP] Statistics)
- 3 History and Citizenship Skills (including one unit of American history and two units from the subjects of history, government, geography, economics, civics and/or non-Western culture)
- 2 Foreign or non-English language (two years of the same language) OR Computer Technology (two units in programming, hardware and business computer applications such as word processing, databases, spreadsheets and graphics will qualify – keyboarding or typing classes DO NOT qualify) (one foreign language and one computer technology course WILL NOT meet this requirement)
- 1 Additional course of any of the subjects listed above
- 1 Fine Arts (music, art, drama) or Speech

www.okpromise.org

Heroes Promise
House Bill 1343 became effective July 1, 2011, creating a special tuition scholarship for children of Oklahoma military personnel who were killed in action after Jan. 1, 2000.
Eligibility
The scholarship is available to children of any person killed after Jan. 1, 2000, in the line of duty in any branch of the U.S. Armed Forces or who died after Jan. 1, 2000, as a result of an injury sustained while in the line of duty in any branch of the Armed Forces.

The person who was killed or died must have filed an individual or joint Oklahoma income tax return for the tax year prior to the year during which the person was killed or died.

The student must enroll within the Oklahoma State System of Higher Education prior to reaching the age of 21.

Award Amount
Heroes Promise will help pay the student's tuition at a public community college or university. It will also cover a portion of tuition at an accredited Oklahoma private college or university or for programs that meet the requirements for federal student financial aid at public technology centers. The scholarship is good for up to five years or until the student completes a bachelor's degree, whichever comes first. The final amount of the scholarship will vary depending on where the student attends college, the tuition rates in effect at that time and whether he or she attends full time or less.

Legislation passed during the 2017 legislative session requires the State Regents to set a maximum limit on the number of courses or credit hours for which the Oklahoma's Promise award will pay. The State Regents are expected to set this limit through the Administrative Procedures process during the 2017-18 academic year.

Academic Scholars Program
The Academic Scholars Program was created and funded by the Oklahoma Legislature as an incentive for students of high academic ability to attend both public and private higher education institutions in Oklahoma. The program was created to enhance the academic environment, to retain academically talented students within Oklahoma and to attract others of equal talent to the state. The program provides a four-year scholarship (eight semesters).

Application
Applications are available every October and can be obtained by contacting the State Regents' office or by visiting the website at www.okhighered.org/academic-scholars. The applicant must qualify prior to college entry.

Eligibility
Residents of Oklahoma automatically qualify by scoring within the 99.5 to 100.0 percentile levels on the ACT or SAT as administered in the state of Oklahoma. For students entering the program in fall 2017, the required score is a total sum score of the ACT skill areas of 134. The sum of scores required is subject to change each year. Students will need to contact the State Regents' office to verify the sum of scores required to qualify for the program. The test scores must be from a single official test report issued by ACT. Partial scores from more than one examination will not be considered.

Residents also automatically qualify by achieving one of the following designations: National Merit Scholar, National Merit Finalist or United States Presidential Scholar. Nonresidents may qualify for the program by achieving designation as a National Merit Scholar, National Merit Finalist or United States Presidential Scholar. However, out-of-state student participation is limited, and achieving such a designation does not automatically qualify students for the program.

Institutional Nominee
State public colleges and universities may nominate students attending their institutions for the Academic Scholars Program based on criteria established by the State Regents and the institution. Nominees will be selected through the admission and/or scholarship application at the institution.

Award Amount
The amount of the award varies according to the type of institution the student attends and qualifying status. The annual scholarship amount for Automatic Qualifiers is $5,500 for students who attend Oklahoma State University; $4,000 for students who attend Oklahoma community colleges; $3,500 for students who attend Oklahoma two-year colleges. The annual scholarship amount for Automatic Qualifiers is $4,500 for students who attend Oklahoma State University, the University of Oklahoma or The University of Tulsa; $3,500 for students who attend Oklahoma community colleges. The annual scholarship amount for Institutional Nominees is $2,800 for students who attend the University of Oklahoma, Oklahoma State University or The University of Tulsa; $2,000 for students who attend Oklahoma community colleges; and $1,800 for students who attend Oklahoma two-year colleges.

Criteria for Continued Eligibility
Participants awarded a scholarship must maintain a 3.25 cumulative GPA each year. A program year is defined as beginning in the fall semester and continuing through the summer term. Scholarship recipients must maintain full-time enrollment (12 hours in the fall and spring) each semester and complete at least 24 semester credit hours each year. Participants choosing the option of summer awards must complete additional credit hours.

For More Information

www.okhighered.org/academic-scholars

Regional University Baccalaureate Scholarship
This scholarship enables 11 participating public universities to provide up to four years of scholarship support to academically promising Oklahoma students enrolled in a
baccalaureate program.

Regional Universities
Cameron University, East Central University, Langston University, Northeastern State University, Northwestern Oklahoma State University, Oklahoma Panhandle State University, Rogers State University, Southeastern Oklahoma State University, Southwestern Oklahoma State University, University of Central Oklahoma, and the University of Science and Arts of Oklahoma.

Application
Application is made directly through the university the student plans to attend. The application deadline will vary for each institution.

Eligibility
Applicants must meet one of the following criteria defined below:
• Applicants must be Oklahoma residents.
• Have an ACT composite score of at least 30 and a GPA and class rank which are exceptional, as determined by the institution OR
• Be a National Merit Semifinalist or a National Merit Commended Student as designated by the National Merit Scholarship Corp.

(Only ACT test scores from an official test report issued by ACT will be considered for admission to the program.)

Award Amount
• The annual award amount is $3,000. Each awardee will also receive a resident tuition waiver from the institution.
• The scholarship is available for up to eight semesters of study in a baccalaureate program at a regional university or until the student is granted a baccalaureate degree, whichever occurs first.
• The scholarship award may be used only at the university making the award; it is not portable.

Criteria for Continued Eligibility
Participants awarded a scholarship must maintain a 3.25 cumulative GPA each year. A program year is defined as beginning in the fall semester and continuing through the summer term. Scholarship recipients must maintain full-time enrollment (12 hours in the fall and spring) each semester and complete at least 24 credit hours each year. Participants choosing the option of summer awards must complete additional credit hours.

Future Teachers Scholarship Program
The Future Teachers Scholarship Program was established by the Oklahoma Legislature and the State Regents as an incentive to encourage the preparation of teachers in critical shortage areas in the public schools of Oklahoma. These areas may change each year.

Critical Teacher Shortage Areas for 2017-18
• Arts and Music
• Business
• Career and Technical Education
• Computer Science
• Early Childhood Education
• Elementary Education
• English and Language Arts
• Foreign Languages
• Health Education
• Humanities
• Library Science
• Mathematics
• School Counselor
• Science
• Social Studies
• Special Education

Application
• A new application must be submitted each academic year.
• Application deadlines are established by individual institutions. Completed applications are to be submitted to the nominating institution. The following documentation is required:
  • First-time freshmen must submit a copy of their high school transcript and ACT or SAT score, whichever is applicable.
  • Students who have attended a postsecondary institution must submit official transcripts from all institutions attended.
  • Admission to a professional education program at an accredited Oklahoma institution of higher education OR
  • An undergraduate record of outstanding success, as defined by the institution.
• Full-time and part-time students are eligible for the scholarship; however, highest priority will be given to full-time students.
• Scholarship recipients must maintain no less than a 2.50 cumulative GPA.
• Each recipient must agree to teach in a shortage area in Oklahoma public schools for a minimum of three consecutive years upon graduation and licensure as a teacher.
• Recipients may receive the scholarship for not more than four years, or the equivalent of four years, of full-time study.

Award Amount
An award amount for each nominated student will be determined by the college the student attends.

The following annual award limits have been set by the State
### Oklahoma’s Colleges and Universities

#### Regents:

<table>
<thead>
<tr>

### George and Donna Nigh Public Service Scholarship

The George and Donna Nigh Public Service Scholarship was established by the 1999 Oklahoma Legislature to provide scholarship opportunities to outstanding students who are preparing for careers in public service. A component of the scholarship program is participation in seminars about public service offered by the Nigh Institute. Oklahoma public colleges and universities and certain Oklahoma private colleges may nominate one scholarship recipient per year.

**Application**

Presidents of Oklahoma colleges and universities will be invited to submit a nominee for consideration of award prior to the beginning of the spring semester. An advisory committee appointed by the Nigh Institute will review and approve the nominations and make announcement of awards.

**Eligibility**

- Scholarship recipients must be residents of the state of Oklahoma as determined by the State Regents.
- Scholarship recipients must be enrolled full time in an undergraduate program at a public or private college or university in the state of Oklahoma.
- Scholarship recipients must be enrolled in a degree program leading to a career in public service as determined by the institution.
- Students receiving the scholarship must demonstrate exceptional academic achievement as evidenced by a number of factors, which may include GPA, class rank, national awards, scholastic achievement, honors, teachers’ recommendations and the applicant’s involvement in extracurricular activities.

**Amount of Scholarship**

- The scholarship award amount is $1,000.
- Scholarships will be awarded on a yearly basis and are not renewable.

- Each participating college or university may nominate one scholarship recipient each year.

### Scholars for Excellence in Child Care Program

The Scholars program awards scholarships to eligible child care professionals to complete course work in the area of child development. These scholarships enable child care providers in Oklahoma to attend a technology center or community college to improve their skills through education.

**Application**

Eligible child care providers may apply for the:

- Career Technology Center Tuition Scholarship Early Education: Pathway to Your National Credential for coursework offered at area technology centers and online.
- Community College Tuition Scholarship for coursework in the area of child development leading toward a CDA Credential, Certificate of Mastery, School-Age Certificate of Completion, Director’s Certificate of Completion, Director’s Certificate of Mastery and/or an associate degree in child development offered at community colleges on campus and online.
- Assessment Scholarship for a national child care credential, either the Child Development Associate (CDA) or the Child Care Professional (CCP).

Applications may be obtained by calling 866.343.3881 (toll-free) or 405.225.9395 or by visiting the Scholars program website at www.okhighered.org/scholars.

**Eligibility**

To qualify for the Scholars for Excellence in Child Care program, child care professionals must:

- Work in a one-star plus or higher DHS-licensed, military-monitored or tribal-monitored child care facility. The facility must have a minimum of 10 percent DHS and/or tribal subsidy enrollment at the time of application.
- Work as a teacher, family child care provider or director at least 30 hours per week earning $15.50 or less per hour.
- Be employed at a child care facility at least six months before beginning course work.
- Once approved, be on a child development plan of study.

**Award Amount**

The tuition scholarship pays 70 percent of tuition and fees and 100 percent of books. The assessment scholarship pays $297.50 of the assessment fee for the CDA Credential or $295 of the assessment fee for the CCP Credential.
Tuition Waivers

College-Awarded Tuition Waiver Scholarships
State Regents’ policy authorizes each institution in the Oklahoma State System of Higher Education to provide for tuition waiver scholarships on the basis of financial need, scholastic aptitude and achievement, academic discipline or field of study, student activity participation and academic level. State system institutions are also required to waive resident tuition for individuals who meet specific criteria, as outlined in state statute.

State-Authorized Tuition Waivers
In addition to tuition waiver scholarships awarded by Oklahoma public colleges and universities, resident tuition will be waived fully or partially for the following:

- Senior citizens who wish to audit courses (may include a waiver of special fees and activity fees)
- POWs, MIAs and their dependents
- Dependents of peace officers and firefighters killed in the line of duty
- Exchange students on a reciprocal basis
- Graduate assistants, either resident or nonresident, with at least a one-quarter time graduate assistantship
- Academic Scholars Program awardees
- Regional University Baccalaureate Scholarship awardees
- Army or Air National Guard members in good standing
- Independent Living Act – Individuals in the former custody of the Department of Human Services who meet specific criteria
- Benefits-eligible employees at institutions in the Oklahoma State System of Higher Education

National Guard Tuition Waivers
The Oklahoma National Guard Tuition Waiver was established as an incentive for qualified men and women to join the Oklahoma National Guard and as a means to retain skilled, productive citizens within the state.

Application
The student is required to submit a Statement of Understanding and Certificate of Basic Eligibility each semester for which he or she is applying for the waiver.
who have been or are in the foster care program of the Department of Human Services (DHS) receive services that include housing, medical coverage and education.

Eligibility
- Student must be a resident of Oklahoma.
- Student must have graduated within the previous three years from a high school accredited by the State Board of Education, the Oklahoma School of Science and Mathematics or a high school bordering Oklahoma as approved by the State Board of Education OR the student must have completed the General Educational Development (GED) requirements.
- Tuition waivers are initially available to students up to 21 years of age who have been in DHS custody for at least nine months between the ages of 16 and 18.
- Student must be enrolled in a public college or university or certain programs at technology centers.
- Tuition waivers will continue to be made available to eligible students up to 26 years of age or upon completion of a baccalaureate degree or program certificate, whichever comes first.

Award Amount
A resident tuition waiver covers the cost of resident tuition for courses for which resident tuition is charged. The student is responsible for all other fees, such as special course fees, student activity fees, facility fees and assessment fees.

Other Oklahoma Assistance Programs
Teacher Shortage Employment Incentive Program (TSEIP)
TSEIP is a legislative ruling administered by the State Regents. TSEIP was designed to recruit and retain math and science teachers in Oklahoma. Successful candidates will be reimbursed toward eligible student loan expenses or an equivalent cash benefit upon fulfillment of the following requirements while still in college:
Students must fill out a Participation Agreement form available through their college or university education department or by calling the State Regents’ Oklahoma Teacher Connection at 800.858.1840. Students may sign up as early as their junior year, after they have been accepted into an education program.
The participation form must be completed and signed before graduation and submitted to the college or university TSEIP coordinator no later than the date of the student’s graduation from a four-year institution in Oklahoma.

The State Regents’ office will notify applicants of application receipt, and any qualifying disbursement benefit opportunities through TSEIP. 

Note: Participants cannot be certified to teach math or science prior to signing the Participation Agreement form. Applicants must enroll no later than the date of their graduation to be eligible.

Eligibility
- Individuals must declare an intention to teach in Oklahoma and graduate from an Oklahoma-accredited teacher education program.
- Individuals must complete the TSEIP Participation Agreement no later than the time of their graduation
- Individuals must maintain satisfactory progress in an academic program leading to an undergraduate or graduate degree in math or science education.
- Individuals must complete an approved program of professional teacher education that includes a student teaching requirement that leads to a certificate to teach math or science at the secondary level.
- Alternative or emergency certificates will not qualify.
- Individuals must be employed to teach either science or math in a secondary classroom within 16 months of graduating from an accredited university.
- Individuals must complete the first full year of eligible full-time teaching service by 25 months from their graduation date from a four-year college or university.
- Individuals must teach for five consecutive years in Oklahoma's secondary public schools.
- The annual award is based on a set formula designed by a legislative ruling and is not to exceed three times the average annual cost of undergraduate resident tuition and fees at institutions that offer teacher education. Due to budget shortfalls in higher education, the amount of the award is based on available funding and may be below the set formula amount.

Eligible Student Loan Programs for TSEIP Reimbursement
- Stafford Student Loans/Guaranteed Student Loans
- Perkins/National Direct Student Loans
- Loans made pursuant to the federal Supplemental Loans for Students program including CLAS
- Consolidation Loan Program loans
- Privately funded educational loans issued to students through colleges or universities

NOTE: Parent Loans for Students (PLUS) are not eligible.

For More Information
Contact the education department at your college or university, or call the State Regents' Oklahoma Teacher Connection at 800.858.1840 or visit the website at www.cashforteachingok.org.
SREB Academic Common Market
The Academic Common Market (ACM) is an arrangement among Southern states allowing Oklahoma students to pay in-state tuition rates at out-of-state colleges or universities while studying in select programs not available at Oklahoma public institutions. The tuition savings to Oklahoma residents who participate in the ACM, as compared to those who enroll as out-of-state students, vary by institution.

Application
Contact the out-of-state college or university for information concerning admission into programs accessible via the ACM. The number of programs offered through the ACM is frequently updated, so visit the ACM list at http://home.sreb.org/acm/choosestate.aspx for the most recent list of accessible programs. Once being unconditionally accepted into one of these programs, the student should complete and submit an ACM Application and Residency Certification form to the address below, along with a copy of the letter of acceptance/admission into the program.

The form can be obtained from the ACM state coordinator for Oklahoma or at www.okhighered.org/acm.

If the program is offered in the ACM inventory, and it is determined that you are a resident of Oklahoma, a letter of certification will be sent to you and a copy provided to the appropriate official at the institution. This will qualify you for a waiver of out-of-state fees.

If there is interest in a program that is not on the current list of available programs, a request may be made that the program be reviewed for possible inclusion. In order to do so, the following must be submitted: a copy of the letter of acceptance into the specific program; the completed Application and Residency Certification form; and curricular information about the program, including course descriptions and credit hour requirements.

Eligibility
- An individual must demonstrate residence in Oklahoma.
- Students must be accepted into a program of study not offered at an Oklahoma public college or university and listed in the ACM inventory for Oklahoma residents. ACM guidelines stipulate that only those programs that differ in curricular content by at least 50 percent from programs offered in the state may be included.
- Students who still have outstanding “provisions” or conditions to fulfill their admissions requirements must complete their obligations and provide evidence of full admission before applying for ACM.
- Applicants must complete and submit the ACM Application and Residency Certification form.
- Institutions set policy regarding any institutionally imposed deadline for the payment of tuition. ACM students not accepted or certified within the deadline for payment may have to wait until the next tuition payment period to receive the out-of-state fee waiver or in-state status. Although Oklahoma accepts ACM applications year-round, you should apply at least two months before institutional deadlines to allow for processing time.

Oklahoma College Savings Plan
The Oklahoma College Savings Plan provides families with a smart, flexible way to save for their children’s future. The plan offers a choice of investment options, tax advantages and the flexibility of using the savings at any qualified higher education institution both in the United States and abroad.

Advantages of Using the Oklahoma College Savings Plan to Save for College:
- Easy to Enroll – New accounts can now be opened online at www.ok4saving.org. Account owners can also make additional contributions or view their account balances online.
- Flexibility in Using the Funds – Whether the child decides to go to a private or public college or university, graduate school or any qualified postsecondary institution, funds in the account may be used at any eligible educational institution in the nation and abroad. The savings may be applied toward tuition as well as related expenses, such as books, supplies, required fees and certain room and board costs.
- Choice in Investments – The Oklahoma College Savings Plan offers nine investment choices: a Moderate Managed Allocation; Conservative Managed Allocation; Aggressive Managed Allocation; Guaranteed Option; U.S. Equity Index Option; Diversified Equity Option; Fixed Income Option; Global Equity Option and a Balanced Option. These choices vary in their investment strategy and degree of risk, allowing participants to select the option or options that best fit their needs and investment philosophy. A full description of these investment options is provided in the Program Disclosure Booklet available from the Oklahoma College Savings Plan.
- No Income Limits – Parents, grandparents, relatives and friends at any income level may open an account and contribute to the plan on behalf of a beneficiary.
- Tax Advantages – The amount a person contributes can be deducted from their Oklahoma taxable income up to a maximum of $10,000 for single filers or $20,000 married couples filing jointly. Contributions will grow free from federal and state income taxes, leaving more money than a similar taxable account. Withdrawals used for qualified expenses will also be free from federal and state income taxes.
- Low Minimum Contribution – An account may be opened with a $100 check or money order, electronic funds transfer or automatic contribution plan. Contributions as small as $15 per investment option per pay period can be made using payroll deduction through participating employers. Each account can have only one account owner and one beneficiary. However, separate accounts can be opened for as many different beneficiaries as the participant may wish.
- Contribution Limit – There is no annual limit on the amount
that may be contributed to an account; however, a lifetime limit applies. In general, a participant may contribute to an account if at the time of the contribution the total balance of all accounts for the beneficiary does not exceed $300,000. The account may continue to grow beyond this limit based on the performance of the investment option(s) that have been selected.

Transferability – If the child or beneficiary decides not to attend a postsecondary institution, the account owner can transfer funds in the account to another eligible beneficiary. To avoid penalty and income tax, the new beneficiary must be a member of the family of the original beneficiary, including siblings, a spouse, first cousins, etc. (as described in the Program Disclosure Booklet).

Professional Money Management – The Oklahoma College Savings Plan is administered by a board of trustees chaired by the state treasurer of Oklahoma. TIAA-CREF Tuition Financing Inc. (TFI) serves as program manager of the Oklahoma College Savings Plan. TFI, an SEC-registered investment adviser, manages the plan’s investments and provides investment advisory services. TFI is a wholly owned subsidiary of Teachers Insurance and Annuity Association (TIAA), an insurance company headquartered in New York. TIAA and its companion organization CREF form a nationally recognized financial services organization with more than $834 billion in assets under management.

Low Cost – An annual asset-based management fee will be paid to TFI to cover the cost of investment management and administrative services. For the Managed Allocation Option and the 100% Equity Option this fee will not exceed 0.40 percent of the average daily net assets so invested, plus the specific investment management fees for the underlying mutual funds as disclosed in the Mutual Funds prospectus. For the Guaranteed Option, TFI will be paid a separate expense fee.

Federal Assistance

Federal Financial Aid Programs
To apply for federal financial aid (grants, work-study and loans), students must complete the Free Application for Federal Student Aid (FAFSA) as soon as possible after Oct. 1 during their senior year of high school and each year they need aid for college. The FAFSA is available online at www.fafsa.gov, and families are encouraged to use this method of application (step-by-step instructions are provided on the site). Paper copies may be downloaded and printed from the FAFSA website. Additional information is available at www.startwithfafsa.org and www.studentaid.ed.gov.

Federal Pell Grant
The Pell Grant is a need-based grant to help undergraduates pay for their education after high school. The award does not have to be repaid. An undergraduate is a student who has not earned a bachelor’s or graduate degree. The maximum annual award for the 2017-18 academic year is $5,920, but awards can be less depending on the student’s actual financial need and level of enrollment.

Federal Supplemental Educational Opportunity Grants (FSEOG)
The FSEOG is an assistance program administered directly by the financial aid office at each participating school (a campus-based program). The FSEOG is gift aid for undergraduates with exceptional financial need. Pell Grant recipients with the lowest expected family contributions (EFC) will receive priority. The award amount can be between $100 and $4,000 per year.

Teacher Education Assistance for College and Higher Education (TEACH) Grant
The TEACH Grant is authorized in the College Cost Reduction and Access Act. It provides grants of up to $4,000 to undergraduate students and $8,000 for graduate students at participating institutions who agree to teach in hard-to-staff fields in a public or private elementary or secondary school that serves students from low-income families. The Budget Control Act of 2011 (the sequester law) continues to require institutions to reduce statutory maximum TEACH grant amounts. Any TEACH Grant that is first disbursed on or after Oct. 1, 2015, and before Oct. 1, 2016, must be reduced by 6.8 percent. Any TEACH Grant that is first disbursed on or after Oct. 1, 2016, and before Oct. 1, 2017, must be reduced by 6.9 percent. If the TEACH grant recipient does not meet the education and service obligation requirements, all TEACH grant funds received will be converted to a Direct Unsubsidized Loan that must be repaid in full, including interest charged from the date the TEACH grant was disbursed.

Federal Work-Study
The Federal Work-Study Program provides part-time jobs for undergraduate and graduate students with financial need, allowing them to earn money to help pay educational expenses. The program encourages community service employment and work related to the recipient’s course of study. Payment is made by the hour for undergraduates. Graduates can be paid hourly or receive a salary. All students must be paid at least the federal minimum wage.

Federal Perkins Loans
Perkins Loans are low-interest (5 percent) loans for undergraduate, graduate and professional students with financial need. These loans are offered through a participating school’s financial aid office, and the school acts as the lender. Up to $5,500 may be borrowed for each year of undergraduate study, while up to $8,000 may be borrowed for each year of graduate or professional study.

Direct Subsidized Loans
Direct Subsidized Loans are low-interest, need-based loans made to undergraduate students attending school at least half-time. Interest is paid by the federal government while the borrower is attending school and during other specified periods. Repayment begins six months following a borrower’s graduation or when the borrower ceases to be enrolled at least half-time.
Direct Unsubsidized Loans
Direct Unsubsidized Loans are low-interest, non-need-based loans made to undergraduate, graduate and professional students attending school at least half-time. Borrowers are responsible for all interest accrued on unsubsidized loans from the date the loan is disbursed, including the time that the borrower attends school, during the grace period and during periods of deferment. Repayment begins six months following the borrower’s graduation or when the borrower ceases to be enrolled at least half-time.

Direct PLUS Loans
Direct PLUS Loans are made to parents of dependent undergraduate students and to graduate or professional students. These loans are not based on financial need. The amount that can be borrowed depends on the school’s cost of attendance and any other financial aid the student may receive, including other loans. Applicants with unfavorable credit histories are usually not eligible for a PLUS loan. Borrowers are responsible for all interest accrued on PLUS loans from the date the loan is disbursed, including the time the borrower or student attends school, during the grace period and during periods of deferment. The repayment start date varies depending on the type of PLUS loan awarded and the loan’s disbursement date.

Stafford Loan Forgiveness Program for Teachers
The Stafford Loan Forgiveness Program for Teachers is intended to encourage individuals to enter the teaching profession and serve in designated low-income communities. Under this program, the Department of Education repays all or a portion of a borrower’s Stafford Loan obligations. To be eligible for this forgiveness program, a borrower must be a “new borrower” on or after Oct. 1, 1998, and must teach for five consecutive complete years and meet other requirements. For a complete list of eligibility criteria, borrowers may contact their loan holder or guarantor. For more information, visit www.o cap.org or www.studentaid.ed.gov or call 800.4.FED.AID.

Tax Credits
Federal Hope (American Opportunity and Lifetime Learning Tax Credits)
If you’re paying for your or your dependent’s college education, there are two tax credits available for you – the American Opportunity Credit and the Lifetime Learning Credit. The American Opportunity Credit is set to expire at the end of 2017, unless Congress acts to extend the provision.

What Is a Tax Credit?
A tax credit is better than a deduction. A credit is subtracted directly from your federal income tax on a dollar-for-dollar basis. This saves you more money than a deduction, which you subtract from your income before you calculate your tax and which yields much less than dollar-for-dollar savings.

Who Gets to Claim the Credit?
If someone claims the student as a dependent for tax purposes, that person, not the student, may receive the tax credit, even if the student files a tax return. Otherwise, only the student may receive the credit.

What Is the Difference Between the Credits?
The American Opportunity Credit can be claimed for each of the first four years of college or career technology school for classes that lead to a degree or recognized certificate. The student must be enrolled at least half-time to qualify for the American Opportunity Credit. The Lifetime Learning Credit is available for any postsecondary education, including graduate and professional school, and unlike the American Opportunity Credit, there is no minimum enrollment. If you qualify for both credits, it will usually be to your advantage to claim the American Opportunity Credit.

What College Costs Qualify?
Qualified expenses include tuition and required fees, minus any grants and scholarships that are received tax-free. Expenses for books and supplies are not included unless they must be paid to the institution as a condition of enrollment. The costs of room and board, insurance, transportation and medical fees (including health fees) are not qualified expenses, even if required for enrollment.

What Is the American Opportunity Tax Credit Worth?
The amount of the credit equals 100 percent of the first $2,000 of qualified expenses plus 25 percent of the second $2,000, for a maximum of $2,500.

What Is the Lifetime Learning Credit Worth?
Single tax filers with up to $80,000 of adjusted gross income (AGI) and joint tax filers with up to $160,000 of AGI qualify for the full American Opportunity credit. The Lifetime Learning Credit is fully available to single taxpayers with AGI up to $54,000 and joint returns up to $108,000. The tax credits are phased out for taxpayers with incomes above these levels.

Is There an Income Limit?
Single tax filers with up to $80,000 of adjusted gross income (AGI) and joint tax filers with up to $160,000 of AGI qualify for the full credit. The tax credit is phased out for taxpayers with incomes above these levels.

OCAP Resources

Oklahoma College Access Network (OK-CAN)
The Oklahoma College Assistance Program (OCAP) built OK-CAN to serve as a centralized hub for college access initiatives and service providers, including high school counselors.

Funded in part by the federal College Access Challenge Grant, OK-CAN provides a framework for participating members to collaborate on activities, materials, publications, tools and other resources to help more Oklahomans recognize that education after high school is within reach. Connect with OK-CAN at www.OKCollegeAccess.org.

Ready Set Repay
Ready Set Repay works with student loan borrowers and Oklahoma higher education institutions to help students make smart borrowing decisions and successfully repay their student loans. Visit the site at www.ReadySetRepay.org.

Oklahoma Money Matters
Oklahoma Money Matters (OKMM), OCAP and OSRHE’s financial literacy initiative, offers counselors access to a wide variety of instructional materials and online tools, including money management guides, lesson plans, a resource clearinghouse, self-paced curriculum modules, an interactive budgeting tool and podcasts. Counselors can also engage through Financial Friday, an online, interactive question-and-answer forum they can share with students through email or the school’s newsletter, social media pages and/or website.

OKMM also produces Your Bottom Line, a bimonthly newsletter that offers helpful information about personal finance, college planning, financial aid and student loan management. Email OklahomaMoneyMatters@ocap.org to learn more or sign up to receive Financial Friday or Your Bottom Line.

UCanGo2
OCAP’s college access initiative, UCanGo2, is a comprehensive outreach program to help students and parents plan, prepare and pay for education after high school.

UCanGo2 provides free resources and services that empower educators, counselors, campus personnel and community partners to demonstrate the value of higher education, inspire confidence to support academic achievement and help families overcome barriers to educational access and success. Learn more at www.UCanGo2.org.

OKLAHOMA’S OFFICIAL COLLEGE PLANNING WEBSITE

The Counselor Center on OKcollegestart.org.......................................................... 39
OKcollegestart for Students............................................................................ 39
OKcollegestart for Parents............................................................................... 41
OKcollegestart for Adult Learners................................................................. 41
OKcollegestart for Educators ......................................................................... 41
OKcollegestart.org

OKcollegestart.org is Oklahoma’s official website for college planning. The comprehensive site provides a one-stop shop for students, parents, adult learners and educators. It features information and tools that can help make planning and paying for college easier for students and their families.

OKcollegestart.org also includes a Professional Center where counselors can monitor students’ progress through career exploration, college selection and financial aid and completion. Counselors can assign milestones for students to accomplish, combine their calendars with students’ and their intended colleges and post reminders about upcoming events and deadlines to help keep students on track to meet their individual goals. In addition, the site gives counselors the ability to send student transcripts high school-to-high school and high school-to-college, as well as the ability to generate reports on students’ progress to help identify gaps in students’ college plans, such as a missing required course.

To participate in the Professional Center, counselors must first contact the Oklahoma State Regents for Higher Education at 405.234.4320 or chunt@ocap.org. Once you have access, your account is password protected and includes a free email address to make communication with students easier.

OKcollegestart.org for Students

OKcollegestart.org gives students the opportunity to create a lifelong portfolio for college and career planning that contains secure records of academic progress, activities and achievements throughout high school. Students have the option of simply browsing the site for planning for college information or creating an account that is protected with a username and password for access to enhanced features, like applying for Oklahoma’s Promise, saving results from college searches and comparisons and requesting and tracking transcripts. All user registrations come with a free email address that can be used for communicating with counselors or potential colleges.

Features include:

Career Planning

Students can use the Career Planning feature to find out how their unique attributes match up with certain occupations. With Career Planning, students can:

- Select Learn About Yourself to take various assessments to determine interests, discover careers they might want to consider, and learn about skills and work values.
- Select Explore Careers to search for careers using criteria such as salary and career clusters or to look for specific careers.
- Select Get a Job to create resumes and thank-you letters, polish interview skills and get help finding a job.
- Select Voices to receive input from peers about their experiences and ask questions through the Ask Faith form.

High School Planning

The High School Planning feature contains information for students to create an academic plan of study and achieve success in high school. With High School Planning, students can:

- Select Your Plan of Study to plan high school courses and prepare to meet college and career pathway requirements. The student’s plan of study is automatically saved within their portfolio, and students can compare their plan of study to college preparatory/work-ready curriculum standards and core curriculum standards.
- Select High School Planning Timeline to find out what they should be doing each year of high school to prepare for college.
- Select Succeeding in High School to find helpful advice about getting and staying ahead, including homework helper websites.
- Select Voices to receive input from peers about their experiences and ask questions through the Ask Faith form.

College Planning

With the College Planning feature, students can research and identify Oklahoma college and university campuses that meet their needs, find out the requirements for college admission, research degree programs, exchange transcripts and more. With College Planning, students can:

- Select Explore Postsecondary Schools to find colleges and universities that best suit their goals. Students can use the School Finder to search for schools that match their needs from a comprehensive list of school characteristics; use the College Matching Assistant to search for schools by criteria such as size, location and majors; view campus attributes side-by side with the Compare Schools tool; and locate schools near zip codes with the Distance Search tool.
- Select Prepare for College to choose the right courses to meet college requirements, plan out the steps to take during each year of high school and find out
admission requirements for Oklahoma public colleges and universities.

- Select Test Prep to boost their test-taking confidence with modules that allow them to work at their own pace.
- Select Explore Programs and Majors to find degree programs that they might be interested in pursuing.
- Select Applications and Transcripts to apply for the Oklahoma’s Promise scholarship program and request transcripts to be sent electronically high school-to-high school, high school-to-college or out-of-state.
- Select Voices to receive input from peers about their experiences and ask questions through the Ask Faith form.

Financial Aid Planning
The Financial Aid Planning feature provides students with information about current college costs and any additional expenses to consider when planning for college. This tab helps students and families learn about finding and applying for the four major types of financial aid – grants, loans, scholarships and work-study – and find out how to make paying for college a little easier. With Financial Aid Planning, students can:

- Select any of the Free Application for Federal Student Aid (FAFSA) links on OKcollegestart.org to be taken to the official website to complete the application. Students should complete the FAFSA after Oct. 1 of their senior year in high school. By completing the application, students apply for funds awarded by most federal and state agencies. Even students who are not sure that they will need financial aid should fill out a FAFSA anyway – it’s free!
- Select Financial Aid 101 to learn the basics about applying, the FAFSA, financial aid packages, determining eligibility, college costs, types of financial aid and more.
- Select Financial Aid Calculators to get help determining the cost of college, college savings, loans, and scholarship amounts.
- Select Find Scholarships to search a database of over 20,000 scholarships, browse local scholarships entered by their school and other financial aid they might be eligible to receive. Students will build a “My Scholarship Profile” to match scholarships according to their ACT & SAT scores, GPA, any disabilities and a variety of special circumstances. In addition, students will receive alerts on their profile when a saved scholarship deadline is approaching and they can sign up to receive monthly email alerts when new scholarships match their profiles.
- Select Build Your Financial Aid Plan to get a grip on their financial futures by building a plan that’s just right for them.
- Select Financial Fitness to explore ways to manage money, a life skill that will help students meet financial obligations, avoid serious debt and use credit wisely.

Your Portfolio
The Your Portfolio feature of OKcollegestart.org, allows students to create a personalized portfolio protected by a username and password. Students can personalize their portfolios by recording future goals, experiences and extracurricular activities, and they can see reviews/comments made to their portfolios. In addition, students can enter and store academic activity and achievement information. It is important that students keep this information up-to-date because it can be used to automatically fill in certain areas of online scholarships available on OKcollegestart.org. The Your Portfolio section includes the following features:

Career Planning Portfolio – Students can review saved careers and assessments results, getting ready for work information and saved work experiences.

High School Planning Portfolio – Students can update a personalized plan of study and high school results.

College Planning Portfolio – Students can update future educational plans and college preparation milestones. Students can find and input information about their postsecondary plans and experiences, test scores and lifelong education plans. Students can also explore colleges online and select campuses to add to Your Portfolio. This allows students and counselors to keep track of whether student course work is matching up with required admission standards for different colleges and universities. Students may add or delete colleges from this list anytime.

Financial Aid Planning Portfolio – Students can review financial aid plans, locate a link to submit the FAFSA, access saved scholarships searches and use the Estimated Family Contribution (EFC) Estimator.

Your Journal – Students can record ideas, questions and thoughts throughout the process of making plans for college.

Your Planning Milestones – Students can track progress on items they need to complete. These are milestones that advisers assigned and track to see students’ progress.

Send and Receive Messages – Students can access a free OKcollegestart.org email account that can be used for college planning purposes, such as communicating with a school counselor or college.

Snapshots of Your Portfolio – Students can review past portfolio work – frozen in time. Whether students have started an assessment, or have completed an assessment, the work students do on OKcollegestart.org will automatically be saved within Your Portfolio.

Review and Manage Your Event Calendar – The calendar displays all upcoming events at student-specified colleges from individual portfolios. The calendar can also display upcoming local events added by the school counselor. Students can also add their own events and reminders.

Account Access Activity – Displays when students have accessed their accounts by date and time.

Parent/Guardian Access to Your Portfolio – Students can invite a parent or guardian to connect to Your Portfolio.
**Merge Your Accounts** – Allows students to merge multiple OKcollegestart.org accounts.

**OKcollegestart.org for Parents**
The *Parents* section of OKcollegestart.org provides links to detailed information about Oklahoma’s Promise, ways to start saving money for a child’s college education, online order forms for college planning materials, a planning timeline to help students identify what they should be doing each year to prepare for college, resourceful homework helpers, scholarships, financial aid and more. The *Parents* section also allows parents to track the progress of their child’s account on OKcollegestart.org.

**OKcollegestart.org for Adult Learners**
The *Adult Learner* section of OKcollegestart.org provides information about programs and majors, career comparisons, test prep, transcripts, scholarships, creating resumes, thank-you letters and ways to polish job interview skills. In addition, the *Adult Learner* section includes links to resources such as:

- Reach Higher, Oklahoma’s Degree Completion Program
- Adult Student Information
- Adult Learner Toolbox
- Resources for Student Veterans and Active-Duty Military
- Transfer Student Information
- OKMM – Ways to Manage Your Money

**OKcollegestart.org for Educators**
The *Educators* section of OKcollegestart.org provides resources to help educators guide students on the path to college. Specifically, the *Educators* resource section includes links to:

- The Professional Center, the place to currently send or view transcript
- Scholarship Corner
- Advanced Placement
- Concurrent Enrollment
- OKcollegestart.org Webinar Series, to watch instructional videos
- Order/View Preparing for College Materials Online

For more information about OKcollegestart.org or the OKcollegestart.org transcript exchange system, visit [www.okhighered.org](http://www.okhighered.org) or [www.okhighered.org/transcript-Exchange](http://www.okhighered.org/transcript-Exchange) or call 405.234.4320 or 800.858.1840.
Public Institutions

(INFORMATION PROVIDED BY EACH CAMPUS)
CAMERON UNIVERSITY
Lawton

GENERAL INFORMATION
Type of institution – Regional university
Other locations – Duncan
Support – State
Enrollment – 6,288
Student-faculty ratio – 21 to 1
Campus setting – Urban
FAFSA number – 3150

Located in Lawton, Cameron University serves students from around the globe, offering nearly 50 degrees through two-year, four-year and graduate programs. OSU-Tulsa is a branch of Oklahoma State University, a comprehensive research institution. The downtown campus offers junior-, senior- and graduate courses. Undergraduates complete their first two years at Tulsa Community College, other two- or four-year institutions or in Stillwater. Day, evening, online, hybrid and weekend classes available.

ACADEMIC INFORMATION

Academic emphasis – Aerospace administration, business, engineering, education, human sciences, health education and promotion and social sciences

Degree programs – osu-tulsa.okstate.edu/academics/ programs.php

Special programs – OSU-Tulsa offers the only undergraduate mechanical engineering bachelor’s program provided by a public university in the Tulsa area. Students can continue graduate study with the OSU School of Materials Science and Engineering, also located on the Tulsa campus. Additionally, OSU-Tulsa offers a five-year professional program in special education that allows undergraduate elementary education teacher candidates to pursue special education at the graduate level while completing their initial bachelor’s degree and certification program. Business students can continue their studies and prepare for leadership positions in a variety of industries by pursing an MBA degree. OSU’s MBA is listed among the best by U.S. News & World Report and is available in Tulsa.

FINANCIAL AID

Average financial aid package – N/A
Application process – Scholarships, federal grants and loans are available for students who qualify. Financial aid is administered through the participating institutions. In addition to federal and state financial aid funds, the participating institutions award tuition fee waivers on a competitive basis based on financial need and academic achievement. Local foundations provide more than $50,000 in scholarships per year for students who do not qualify for financial aid from federal or state sources. Scholarships are available for the fall, spring and summer semesters through UCSO. Visit the UCSO administration office for more information and to apply.

ST. GREGORY’S UNIVERSITY*

Shawnee

GENERAL INFORMATION

Type of institution – Private/independent four-year university
Other locations – Tulsa, Oklahoma City
Support – Private/independent
Enrollment – 605
Student-faculty ratio – 13 to 1
Campus setting – Suburban
FAFSA number – 3183

Catholic University located in Shawnee with classes offered in Tulsa and OKC.

ACADEMIC INFORMATION

Academic emphasis – Liberal arts, professional undergraduate programs in business, nursing education, graduate programs
Degree programs – stgregorys.edu/admissions/traditional-learning/degree-programs

FINANCIAL AID

Average financial aid package – $21,090
Application process – Parents and students are encouraged to complete their FAFSA for federal aid as early as Oct. 1 (using 2015 Income and Tax information), and should be submitted no later than Dec. 1. You may apply for financial assistance online by completing the Free Application for Federal Student Aid (FAFSA) at http://www.fafsa.gov. The SGU Federal School Code is 003183. FAFSA's submitted after Jan. 1 may not be eligible for some grants and scholarships. Once submitted, the FAFSA will import into our system in approximately two to three business days. If you previously submitted a FAFSA for the current school year, you may need to access your FAFSA and update it with St. Gregory’s University’s school code (003183), so we have access to it.

Application deadlines – Dec. 1: FAFSA must be submitted no later than Dec. 1, to be reviewed for OTAG state grant eligibility. July 1: All loan applications and related requirements should be completed (Direct Loans, Parent PLUS, Alternative) by July 1 in order to satisfy the tuition charges deadline Aug. 1.
